4	Bryce Munn		This is very upsetting especially since this is my private vehicle that I use for my hobbies. It would understand if my truck was a 4500 class or bigger. But you can buy these truck at a regular car lot with a regular class C license.
5	Ryan San Jose		Pickup trucks are not for commercial use these days. Seven out of 10 households use a 4 door pickup truck as a family vehicle. Most USA made SUV's use the same fram and suspention as the pickup trucks. This law is unfare to the residents in LB.
6	Michael Hedges		Thank you for your consideration.
7	Julie Munn		
8	George Nielsen		Many truck owners trucks are used to pull our RV'S for our vacations
9	Martin Gilmore		Let my people park!
10	Brian Eddy		I own a crewcab fullsize American made truck as my family vehicle. I need to park it in front of MY house.
11	Ed Corpus		
12	Kenneth Tsuji		
13	Kyle Kennedy		
14	Robert Gibson		Pick-up trucks are antiquated technology, amazingly inefficient, generally not used for their intended purpose, and are a danger to the driver and everybody else using the road. It is quite a surprise that there is no amendment in the US constitution protecting a citizen's right to own or in this case even park one.

21	philip platt		Get real
22	norm saumure		
23	Craig Gunther		
24	Jeff Berkenkamp		Cites issued under this municipal code are being issued under the "letter of the law" and not the "spirit of the law" (that for which the law was intended). There are plenty of municipal codes on the books which are outdated and/or not enforced. I would suggest that the City Prosecutors office direct the Police Department not to cite pickup trucks for this code until the municipal code can be reviewed and/or revised.
25	Mike H Boer		This law has to be changed. It actually read 3tons "gross" vehicle weight are not allowed to drive on non-truck routes. You have 20% of the drivers shopping and living that are breaking the law. You should inform LB of neighbors trucks to tree up parking in their neighborhoods. No one needs this
26	Larry D. Kennedy	COL0bajas@aol.com	THIS parking regulation is ridiculous This is a commercial pickup vehicle and is used as needed for personal use only

119 Jessica Dotts  
120 Cris Garcia  
121 Michael D. Toomey My primary vehicle is my work truck. If I park it  
in my drive way it will block the sidewalk.  
122 Melissa Toomey  
123 Frank Giammona I have also received this (truck not on truck route)  
\$102.00 ticket and feel that it is unjust. Many of us, like myself, rely on our  
trucks for the livelihood of our families. We already are forced to pay more to have  
the commercial plates which should allow us to park in more places, not less....  
Since our trucks use more fuel, we pay more fuel taxes, which in turn, should go to  
repairing "NON TRUCK ROUTE" roads. With my business, I pay more state, federal and  
local taxes on my revenue than the average Long Beach citizen. why would the City of  
Long Beach feel the need to create more hardship for the citizens of Long Beach, who  
already give much more than average?

124 Martina Mandryk Very very important issue!  
125 Chris Mandryk Please do not make things harder for the small  
business person.

126 Kristopher Kraack  
127 Richard L. Howard PLEASE do not pass this bill. If the neighbors

224 Jeffrey R. Hood I have driven my F350 Crewcab Dually as my sole transportation for 23 years without a problem. Why is this antiquated law just now being enforced? According to my "Commercial Registration" the unladen weight of my truck is 4689 pounds, (less than three tons) which is well within state limits, and even within Long Beach limits depending on interpretation. My maximum GVRW is 10,000 pounds fully loaded. Does the Long Beach law apply to GVRW, or unladen weight? This is a private vehicle and is not for hire or advertised for hire.

236 Robert Wiser It's bad enough that we that have trucks for personal use have to pay commercial weight fees to the state just because they consider all pick-ups commercial. We shouldn't have to worry about having to pay the city for some ancient law that has no bearing in todays world other than to make money for the city.

237 Patrick Rios

238 Jose A. Hernandez, Jr.

239 Julie De Loach

240 Aaron C. Aasted Many parts of Long Beach were well established long before the full size pick up truck or the suv's as we know them came to be. If this law is not changed, the next things to be targeted will be the boats, rv's, toyhauler's and the like. Then even these will not be allowed to park out in front of our own homes... This is part of why we own homes where we are...

241 Matthew D. Fellows The citations for revenue based on this outdated law is ridiculous and should be ammended. Thank you.
