

# MCC Cement Facility Modification Project EIR Response to the Appeal

**Heather Tomley**  
Director of Environmental Planning  
July 14, 2015

# Response to Appeal

## Issue: CEQA Baseline

Baseline based on actual activity levels at the facility and fully complies with CEQA

# Response to Appeal

## Issue: Application of All Feasible Mitigation

Use of AMECS is not currently feasible nor an alternative to MCC's DoCCS

Zero or near-zero emission trucks are not currently feasible

# Response to Appeal

## Issue: Scope of the Analysis

All potential project impacts were analyzed

# Recommendation to City Council

## Recommendation

Deny the appeal and uphold the Harbor Commission determination
