

City of Long Beach Public Hearing Clerk for City Council for City the Traffic Engineer

I am sorry that we can not attend the hearing to consider the parking in our neighborhood on March 23, 2010.

Each school day the students from Long Beach State University park on our street in front of our house and they hang over into our driveway as well as our neighbors. They also park on the corners obstructing the sidewalk for pedestrians to walk along.

Our driveway is very narrow and we have a light post on one side making it hard to make a turn into Our driveway with them sticking out into it.

We do need parking signs put up for residents only to park on our street.

Part of Rendina Street has signs that were put up a while back but they did not finish the Whole street leading into Knoxville Ave. They need signs on Knoxville as well. We have students that arrive before 8 A.M and leave around 10 PM on some nights. They park in front of our house all day.

With the students taking up all the parking places during the day we as homeowners have no place for different workers to park, like plumbers, electricians, contractors etc. who need to work on our homes at different times plus

guests who come to visit us.
We are in favor of having signs put up
all the way down Rendina Street and
Knoxville ave. also:

Sincerely

Stanley and Suzanne Fox
6546 Rendina St.

Long Beach, Ca. 90815-4623
