

#2

6 July 2004

Thank you Honorable Mayor and City Council of Long Beach

Many of the residences along El Prado Avenue near Anaheim Road are experiencing parking problems similar to those being experienced along Greenbrier Road and bordering streets. The problems are caused by non-residents parking in front of residential homes for extended periods of time. Specifically these problems include:

1. Brooks College students using our streets as a "parking lot" while attending classes.
2. CSULB students using our streets as a "parking lot" enabling them to take the campus shuttle on Anaheim Road to and from campus.
3. Customers of the Park Plaza Center and adjacent office buildings using our streets as an "overflow parking lot".
4. Apartment residents along Anaheim Road parking their cars in front of our homes for extended periods. Many park their vehicles for days at a time only to be moved on street cleaning days.

El Prado Avenue is currently at the border of the proposed Preferential Parking District "N". It is requested that the proposed District be extended to include El Prado Avenue between the east-west alley located north of Anaheim Road (same as on Greenbrier Road) and Los Flores Street. See attachment 1 area map. Establishment of District "N", with the current borders, will only exacerbate the currently unbearable parking problem along El Prado Avenue because of its close proximity to the sources of the problems relative to other residents in the neighborhood.

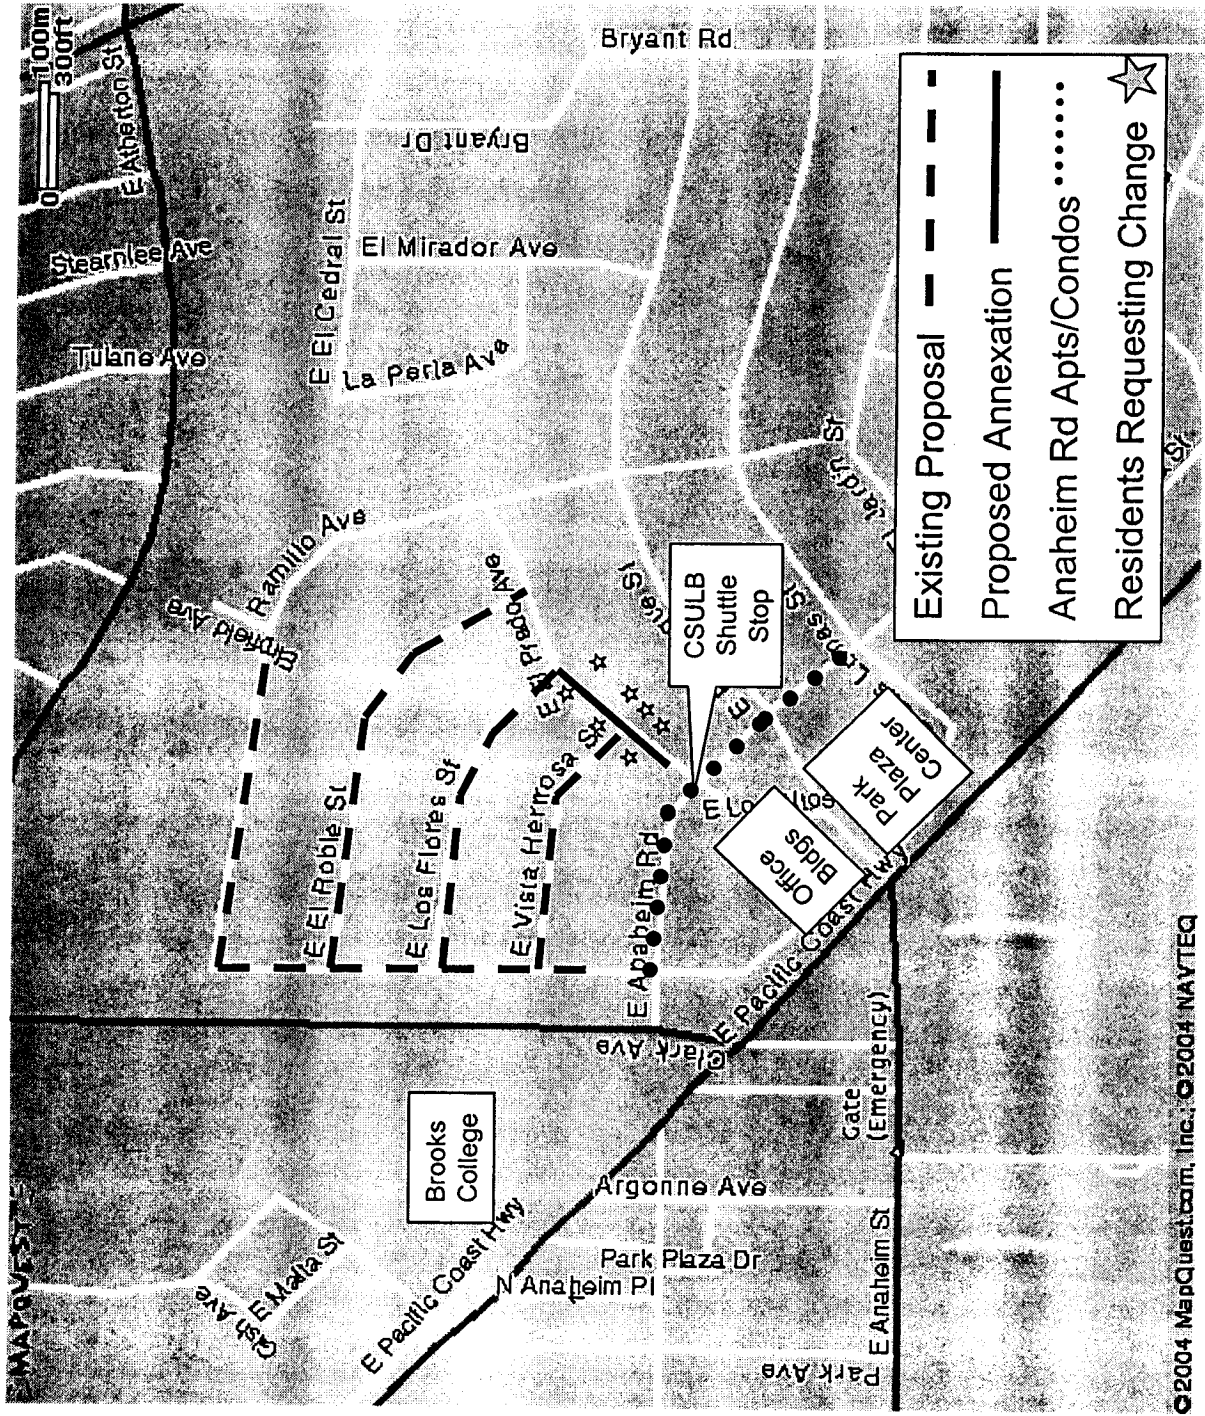

The seven affected residences on El Prado Avenue, listed below, have signed similar letters unanimously supporting this letter, see attachments 2 through 8.

Family	Address
Callos	5300 El Prado Avenue
Kelsey	5310 El Prado Avenue
Fithian	5311 El Prado Avenue
Walters	5320 El Prado Avenue
Rhorer	5330 El Prado Avenue
Albin	5220 Vista Hermosa Avenue
Fraher	5260 Los Flores Avenue

Thank you for your time and consideration in this matter.

Respectfully yours,

James W. Kelsey
