2. (15-1270) Recommendation to receive supporting documentation into the record, conclude the hearing, and declare ordinance amending the Long Beach Municipal Code by adding Chapter 21.66; and by repealing Chapter 5.89, all relating to Medical Marijuana read the first time and laid over to the next regular meeting of the City Council for final reading. (Citywide)	Maureen Neeley	neeley@att.net		Belmont Heights	Long Beach	CA	90803	I am concerned that the number and location of these retail outlets will again affect the viability of nearby shops and restaurants. The odor, security guards and history of burglaries of this cash-dependent business model does not lead to stability. I'd support delivery service, or 4 well-regulated outlets in less populated quadrants of the city. Until our Federal gov't legalizes MM, we shouldn't throw good money after bad: a short-sighted policy that our economy can't handle. Continue the ban.	12/7/15

Apparently there are enough votes on the council to pass the ordinance . . . if this is the case I think those council districts who are opposed should be able to opt out. This seems very fair. Those districts who want the dispensaries get them and those who don't don't.	12/8/15

There must be a limit as to the number of marijuana businesses permitted in any one council district. I would recommend no more than three, which is a full third of the total. We already know that there are issues with these businesses. Please be very careful about unduly burdening specific areas of the city. There are already enough problems in some that they do not need any more.	12/8/15
