Dear City Counsel,

Why do I think Charon Gonder is a good candidate for this award?.... I smile as I write this because there's not enough words in any language to give you all the reasons, but here's just a few.

Charon is deserving of this is because of her true selflessness. I have never met a more passionate woman who loves her family. Loves her city. Loves her country. On a daily basis she either executing action or mulling over ideas to help those who are in need. I've participated in many things alongside her, as she has been a motivation for me to be the e re change I wish to see. From backpack giveaways to feedings to clothing she does it all. Without reward might I add because this is her mission in life and she's doing the work.

I am very proud to call her friend and elated that she's FINALLY being recognized.

Warmly

Kalisha A. Wilson
