VoteHere Mail-in Ballot Tracker (MiBT)

MiBT is an automated mail ballot tracking system that ensures every mail ballot and envelope is reconciled

- ✦ Software for automated envelope and ballot tracking
- ✦ Inventory Control numbers track the status of every ballot and envelope
- ✦ Eliminates manual counting of tracking stations
- ✦ Ensures each voter gets the correct ballot
- ✦ Integrates and aggregates data for end-end tracking reports

What Customers Say About MiBT

- ✦ Supports and automates your current reconciliation process
- ✦ Ballot Tracker offers an independent, comprehensive “Chain of Evidence” for envelopes and ballots
- ✦ Saves time and reduces stress
- ✦ Real time, automated reconciliation reports with detailed accounting
- ✦ Enforces correct process by preventing many common problems – “Enforced Topology”
