Subject: **Recommendation to Amend Municipal Code to make consistent the itemizing thresholds of City Officeholder Accounts with State Law**

Current City regulations are inconsistent with State of California regulations regarding reporting requirements.

The FPPC Form 460 requires that an officeholder report periodically regarding the contributions and expenditures related to his or her account. The law was passed in the 1970s and subsequently amended by the Political Reform Act (PRA). Under the PRA, an officeholder must itemize all expenditures of \$100 or more and all contributions of \$100 or more.

The City OEF also requires that officeholders report periodically regarding contributions and expenditures related to his or her account (See LBMC 2.01.380). Under the Municipal Code, all expenditures of more than \$50 must be reported, as must all contributions regardless of the amount. Because the itemizing thresholds under the City law are different than those under the state law, two separate forms are required. Consistency would require that only the State form be reported.

My request is for the Elections Oversight Committee to recommend to the City Council that City reporting requirements be updated to conform to State regulations. This would lessen the burden of compliance on both filers and City staff, as only the State form would be required.
