

**Protect Long Beach—Stop LNG!**

The proposed Liquefied Natural Gas (LNG) terminal at the Port of Long Beach is not only dangerously close to densely populated areas but would also be built on landfill situated between 3 earthquake faults. An accident or terrorist attack could not only kill or injure thousands of people but could also shut down the Los Angeles/Long Beach Port complex, effectively crippling the national economy and our security.

For the safety of our communities, the residents of Long beach and citizens of California urge you to take action to stop the LNG terminal proposed for the Port of Long Beach.

**¡Proteja Long Beach Para LNG (GNL)!**

La propuesta de la Terminal de Gas Natural Licuado (en inglés, LNG) en el Puerto de Long Beach no solo estaría peligrosamente cerca a áreas densamente pobladas, pero se pretende construir en un terreno situado entre tres fallas de áreas de terremotos. Un accidente o un ataque terrorista no solamente puede matar o lastimar a miles de gentes, pero también puede afectar el complejo puerto de Los Angeles/Long Beach, y afectaría la economía nacional y nuestra seguridad. Por la seguridad de nuestras comunidades, los residentes de Long Beach y ciudadanos de California urge que tomen acción para la LNG (GNL) terminal propuesta en el Puerto de Long Beach.

The proposed Liquefied Natural Gas (LNG) terminal at the Port of Long Beach is not only dangerously close to densely populated areas but would also be built on landfill situated between 3 earthquake faults. An accident or terrorist attack could not only kill or injure thousands of people but could also shut down the Los Angeles/Long Beach Port complex, effectively crippling the national economy and our security.

For the safety of our communities, the residents of Long beach and citizens of California urge you to take action to stop the LNG terminal proposed for the Port of Long Beach.

## ¡Proteja Long Beach Para LNG (GNL)!

La propuesta de la Terminal de Gas Natural Licuado (en inglés, LNG) en el Puerto de Long Beach no solo estaría peligrosamente cerca a áreas densamente pobladas, pero se pretende construir en un terreno situado entre tres fallas de áreas de terremotos. Un accidente o un ataque terrorista no solamente puede matar o lastimar a miles de gentes, pero también puede afectar el complejo puerto de Los Angeles/Long Beach, y afectaría la economía nacional y nuestra seguridad. Por la seguridad de nuestras comunidades, los residentes de Long Beach y ciudadanos de California urge que tomen acción para la LNG (GNL) terminal propuesta en el Puerto de Long Beach.

## PROTECT LONG BEACH - STOP LNG !!

The proposed Liquefied Natural Gas (LNG) terminal at the port of Long Beach is not only dangerously close to densely populated areas but would also be built on landfill situated between 3 earthquake faults. An accident or terrorist attack could shut down the Los Angeles/Long Beach Port complex effectively crippling the national economy and our security.

For the safety of our communities, the residents of Long Beach and/or citizens of California urge you to take action to stop the LNG terminal proposed for the Port of Long Beach.

Petition: PROTECT LONG BEACH - STOP LNG  
Date: 06/07/2005  
Location: <http://www.thePetitionSite.com/takeaction/857080948>

The proposed Liquefied Natural Gas (LNG) terminal at the port of Long Beach is not only dangerously close to densely populated areas but would also be built on landfill situated between 3 earthquake faults. An accident or terrorist attack could not only kill or injure thousands of people but could also shut down the Los Angeles/Long Beach Port complex effectively crippling the national economy and our security.

For the safety of our communities, the residents of Long Beach and citizens of California urge you to take action to stop the LNG terminal proposed for the Port of Long Beach.
