To the Long Beach City Council

This letter is in regard to the Preferential Parking District F.

We have a family of eight with six licensed drivers. The permits that are allowed per home will not accommodate our home. We are also a very active family with many relatives and friends who visit our home daily. We are in need of the option of purchasing more permits in order to avoid being ticketed. On an average day we have at least three to five cars extra in front of our home, besides our six cars. The reason being, we have a pool, weight room and a stay at home mom who loves being hands on with her kids in order to keep them on the straight and narrow road to becoming great human beings. I'm not too excited about this Preferential Parking. Especially since the cost and inconvenience this will cause our family and friends will now make me a traffic monitor as well as trying to run a busy household. But I love my neighbors and neighborhood so that means I will have to accept what they have petitioned to do. What I ask from you is the option and decision that will allow our family a little breathing room. Please allow us to be given the opportunity to purchase four more visitor permits in order to get through this time in our lives.

Thank you for taking the time to consider our request,

Greg and Margie Luyben
