DEPARTMENT OF PUBLIC WORKS

333 West Ocean Boulevard 9<sup>th</sup> Floor • Long Beach, CA 90802 • (562) 570-6383 • Fax (562) 570-6012

August 6, 2013

HONORABLE MAYOR AND CITY COUNCIL  
City of Long Beach  
California

**RECOMMENDATION:**

Refer the Proposed Capital Improvement Program for Fiscal Year 2014 to the Planning Commission for review of its consistency with the General Plan. (Citywide)

**DISCUSSION**

In accordance with the City Charter, the City Manager has submitted the Capital Improvement Program (CIP) for Fiscal Year 2014 to the Mayor who, in turn, transmits the document to the City Council. In addition, Article X, Section 1002(e) of the City Charter requires that the Planning Commission review the proposed CIP for consistency with the General Plan. The Planning Commission will then forward its findings to the City Council for consideration.

This matter was reviewed by Deputy City Attorney Linda Vu on July 11, 2013 and by Budget Management Officer Victoria Bell on July 12, 2013.

**TIMING CONSIDERATIONS**

The Planning Commission's findings are required prior to adoption of the Fiscal Year 2014 budget by City Council. Action on August 6, 2013, will enable the Commission to meet the necessary timelines for budget consideration. The proposed CIP for Fiscal Year 2014 is scheduled to be formally presented to the City Council during the August/September budget hearings.

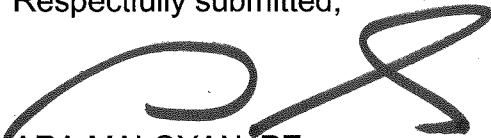

**FISCAL IMPACT**

There is no fiscal or local job impact associated with the requested action.

**SUGGESTED ACTION:**

Approve recommendation.

Respectfully submitted,

  
ARA MALOYAN, PE  
ACTING DIRECTOR OF PUBLIC WORKS

# Fiscal Year 2014 Capital Improvement Program

## Capital Program Overview

# Capital Improvement Program Overview

## Capital Improvement Planning Process

The Public Works Department was responsible for developing the Fiscal Year 2014 (FY 14) CIP. Public Works, in conjunction with other Departments, reviewed the City's capital needs and prioritized project submittals based on established criteria:

- The ability of the project to meet health, safety and legal concerns and mandates
- The value of the project to prolong the life of City assets or avoid/minimize future repair costs
- The benefit the project will provide the community in support of the goals articulated in the Strategic Plan
- The potential for the project to generate savings or increase productivity
- The extent to which the project will secure future funds through program planning or grant eligibility
- Inclusion of the project in the previous Five-Year plan

The Department of Financial Management provided the revenue projections to determine the type and amount of resources available to finance proposed capital projects. Specifically, Financial Management monitors fiscal trends at both the local and state levels. Analyses of property, sales, and user tax revenues and County, State and Federal information contribute to their economic forecast.

## Information Document

The CIP identifies the proposed budget for each program that will receive funding in FY 14, including the funding sources and charts showing funding allocation percentages. The CIP also includes a historical perspective. The CIP's multi-year character is reflected in the historical summaries to show the fiscal activity for each program, from inception through FY 13.

## Estimated Carryover Balances

The Financial Summaries and individual Program pages include an FY 13 Estimated Carryover column. These carryover amounts may be currently planned for projects in the design stage, pending contract award, or committed to an approved contract. Therefore, estimated carryover amounts are not necessarily available for new projects.

## Operating and Maintenance Costs/Operating Budget Impacts

One of the many issues evaluated through the CIP process is the impact new infrastructure projects and assets may have on departmental operating budgets. As capital improvement projects are considered by the City Council, the operating and maintenance (O&M) costs for these facilities should be estimated so that the City Manager and City Council can assess whether adequate budget is available to operate and maintain these facilities after construction. Although some additional costs may be absorbed within a department's existing budget, additional resources often will be required in the Proposed Budget for the operational expenses associated with capital projects.

As part of the Capital Improvement Program Budget process, the Department of Public Works coordinated with Financial Management and various end user department staff to describe and quantify any anticipated O&M costs associated with each new capital project that will either be operational in FY14 or approved in FY14 but operational in future years.

O&M costs are addressed at the outset of the process and, if needed, included in proposed adjustments to the operating budgets as part of the Annual Budget Process. As a result, Management and the City Council are able to prioritize these additional costs, along with other budget requests, based on available funding.

### **Implementation Criteria**

Projects that will have O&M costs are new infrastructure projects. O&M costs are not applied to upgrades and renovations (e.g., major street maintenance projects) since they actually tend to lower long-term maintenance costs.

### **Calculating FY14 Operating and Maintenance Costs**

The Department of Public Works works with client departments to quantify potential costs:

- Full-time/part-time FTE (Full Time Equivalent) costs;
- Utility (water, sewer, refuse, electrical and gas) costs in a facility;
- Maintenance, including HVAC, plumbing, electrical and structural repairs, landscaping services;
- Custodial services;
- New operating equipment/supplies; and
- Technology annual replacement contributions.

# Guide to the Capital Improvement Program

---

## Introduction

The Fiscal Year 2014 (FY 14) Capital Improvement Program (CIP) represents the City's short-range strategic capital investment. The CIP identifies and provides for two types of expenditures: the first covers strategic improvements to the City's existing infrastructure and the second involves one-time programs designed to address important community needs. To view and obtain additional information of projects in design, construction or recently completed, please visit the CIP website at [www.lbcip.com](http://www.lbcip.com).

## How this Document is Organized

The majority of the book is composed of the eleven primary sections of capital improvement programs that are defined by the type of capital investment. The Public Works Department manages CIP programs in Sections 1 through 6; the indicated departments manage programs in Sections 7 through 11. Following is a summary of each section.

**1. Marinas, Beaches, & Waterways** - Two assets that make Long Beach unique are its beaches and marinas. These City operated and maintained resources provide recreational enjoyment to both residents and visitors. In FY 13, the City completed the design and permitting for several beach restrooms, with construction scheduled to be completed in FY 14. Residents and visitors who enjoy the City's beaches can also expect to find more efficient, environmentally friendly, and improved beach parking lots during FY 14. Lighting and landscaping enhancements were initiated in FY 13 around the Rainbow Harbor Esplanade, and additional security measures and safety lighting will be installed in FY 14.

The City's water quality has continued to improve in the last several years. The FY 14 capital program remains proactive in improving the City's beaches and recreational water quality. A proposed low flow diversion system at Appian Way and Second Street will help divert dry weather urban runoff into the sewer system as opposed to into the Alamitos Bay. Construction of this system is anticipated to be completed in FY 14. The engineering design of the Colorado Lagoon Open Channel and the assessment of Rainbow Lagoon will also be initiated in FY 14.

The Alamitos Bay Marina Rebuild will continue in phases as funds are secured. Bluff erosion repairs and enhancements are anticipated to be completed in FY 14, with new identified bluffs undergoing design and engineering for additional improvements. Belmont Pool and Pier Improvements project has been funded in FY 13.

Proposed public dock and pier improvements at Rainbow Harbor, Leeway Sailing Center, and Peter Archer Rowing Center will continue to move forward.

**2. Parks, Recreation & Marine** - Parks located throughout the City provide recreational amenities and open space to enhance the environment and provide leisure opportunities to meet the needs and interests of residents. There is a constant effort to address aging park infrastructure throughout the city as well as to address the lack of park and open space opportunities in underserved neighborhoods.

During this past year, new parks opened at Longview Point at Willow Springs, Craftsman Park and Baker Street. In addition, the existing Promenade Park was completely renovated and opened with a new name, Harvey Milk Promenade Park. Construction commenced in FY13 on Chittick Field and Orizaba Community Center. The newly renovated freestanding restroom at Ramona Park also opened to park patrons. In FY 14, the Orizaba Community Center will open. Design and construction efforts will continue in FY14 at Wrigley Greenbelt, Seaside and 14<sup>th</sup> Street Soccer Renovation, SCE/NLB Fitness Park, Alamitos Park and Drake/Chavez Soccer Fields.

**3. Public Facilities** - Long deferred critical repairs are required to sustain the integrity of various health, library, fire station, police station, public works and other key facilities. A facility assessment performed in FY 07 evaluated the condition of 132 structures totaling 1,916,769 square feet. The assessment identifies deficiencies in each facility and provides cost estimates to perform repairs required to maintain each facility in a safe and reliable operating condition.

The Civic Center's FY14 projects include upgrading security cameras and halon fire panel, overhauling the chiller at City Hall, replacing electrical cable, plumbing, and replacing auditorium seats, drapes and carpet in council chambers. These improvements will be initiated as needs are identified in conjunction with the potential relocation of City Hall to ensure Civic Center funds are used efficiently.

The Convention Center's FY 13 projects included improvements to allow for the temporary transformation of the arena into a ballroom facility, including seating, a fly-up superstructure, and roll-up carpeting and drapes. Additional upgrades provided directional signage, renovation of food and beverage facilities, kitchen equipment, plumbing, electrical, and the central plant. These improvements, funded by Measure D Oil Revenue, increased the Center's marketability while maintaining this important City asset. In FY 14, the Sports Arena air handlers will be replaced, entryway will be improved, and four restrooms will be renovated.

4. **Storm Drains** - Public Works is responsible for stormwater-related capital improvement projects and storm drain system maintenance. This work includes pump station repair, telemetry monitoring, and system improvements for all 23 City-owned pump stations that are essential to the protection of property during storm events. In addition, portions of the storm drain system remain deficient in capacity and the City continues to design and construct upgrades to its undersized storm drains as funding becomes available.

The Long Beach Stormwater Management Program (LBSWMP) is now in its 13th year and continues to be fully implemented in compliance with its National Pollutant Discharge Elimination System (NPDES) permit, the Federal Clean Water Act (CWA) and subsequent CWA amendments, all of which were adopted to protect receiving waters such as rivers, lakes, bay areas, and oceans from contamination by preventing pollutants from entering Municipal Separate Storm Sewer Systems (MS4s). Projects to maintain compliance with these permits include catch basin trash collection screens, pump station trash netting systems, monitoring for water quality and low flow diversion systems.

Repairs, rebuild and replacement of broken storm water pumps will be performed in FY14 to ensure proper storm water management and reduce flooding on City streets and the 710 and Terminal Island Freeways.

5. **Street Rehabilitation** - Preserving our neighborhoods is a key element in the Long Beach Strategic Plan. The Street Rehabilitation programs are designed to help meet that goal. The program delivers improvements including reconstructing and resurfacing major, secondary, and residential streets, upgrading accessibility of curb ramps to comply with current disabled access regulations, replacing of street signs; repairing neighborhood sidewalks, curbs, and gutters; and rehabilitating bridges to repair deficiencies identified by the annual Los Angeles County bridge inspection reports.
6. **Transportation Enhancements** - This section contains programs designed to meet increased needs for mobility resulting from economic growth utilizing a combination of funds. These funds include Proposition C, Gas Tax Street Improvement Capital, Transportation Improvement Fees, and Federal and County grants. The transportation improvements include street and intersection widening, traffic signal system expansion and upgrades, transit improvements, parking restrictions and replacement parking, neighborhood traffic management, and bike lanes. This category also includes programs that monitor and evaluate traffic congestion areas throughout the City and respond with projects to relieve congestion or enhance traffic safety.
7. **Airport** - Long Beach Airport serves over 3 million passengers each year and offers a variety of services to airlines, commercial and general aviation users, as well as the general public, providing direct and indirect economic benefits to the region. Funding for Airport Capital Improvement Projects comes from several sources including Federal Aviation Administration (FAA) Airport Improvement Program grants (AIP), Passenger Facility Charges (PFC), Airport fees and facility charges, and bond sale proceeds. The basis for Airport capital projects is the safety and security of the general public, FAA and Transportation Security Administration (TSA) mandates and operational improvements. FY13 was highlighted with the opening of the new Long Beach Airport passenger

concourse.

Planned projects in FY 14 include airport terminal area improvements, air carrier ramp improvements, new rental car facility, reconstruction of 7L-25R and Taxilane J, and new airfield signage and security improvements. There are other projects started in FY 13 that will continue on in FY 14. Funding for the Rental Car Facility project will be from Customer Facility Charges (CFCs). These projects will enhance the Passenger Experience Program.

8. **Gas and Oil** - Long Beach Gas & Oil (LBGO) oversees 1,900 miles of natural gas pipeline. A key Department objective is the safe delivery of natural gas to its 145,000 businesses and households. All operations are conducted in strict compliance with U.S. Department of Transportation's (DOT) pipeline regulations, CFR 49 part 190-199. LBGO is engaged in a long-term pipeline infrastructure replacement program focusing on upgrading pipe 60+ years old. Over the past five years, over 76 miles of distribution pipeline and approximately 10,000 service pipelines have been replaced, improving system integrity.

As part of the Department's commitment to provide affordable and safe natural gas, LBGO has taken a system-wide approach by reviewing the backbone of the gas distribution system for potential upgrades to increase gas deliverability to its customers needing higher delivery pressure than is currently available. LBGO is also in the process of establishing a 15-pound pressure standard throughout the regular distribution system, which will replace the five existing pressure areas, while increasing the backbone system above the existing 40-pound limitation. The integrated plan of pressure-consistency, along with replacement of aging infrastructure and corrosion control practices will enhance system integrity, improve system reliability and gas deliverability, increase gas storage within the distribution system, and reduce potential flow constraints. FY14 will see continued improvement in the department efforts to coordinate gas projects with street projects.

9. **Harbor** - The Harbor Department (Port) continues to implement a long-term capital improvement program designed to (1) provide Port tenants with safe and secure, state-of-the-art facilities capable of accommodating international trade and (2) secure regional economic benefits in a sustainable manner

that ensures economic vitality, ecological health, and community integrity.

The Port's \$4.5 billion investment in capital projects over the next decade will stimulate the economy by creating thousands of direct construction jobs along with indirect service and commercial opportunities. In FY 14, the Port will be spending over \$284 million on the Gerald Desmond Bridge as construction will be well underway, with all work scheduled to be completed in 2016. FY 14 will also see the Port invest over \$214 million in its Middle Harbor Redevelopment Project. When the project is complete, the Middle Harbor Terminal will be the greenest major container terminal in North America due to its extensive use of on dock rail and cold ironing infrastructure. In addition more than \$57 million is being allocated in FY14 to environmental expenditures, which includes \$39 million for the development of cold-ironing infrastructure on Piers A, G, J and T. Port Security will continue to be a high priority with the Department investing over \$61 million in projects including nearly \$52 million for fire Station upgrades and the planning and purchasing of two new fireboats.

10. **Successor Agency (SA)** - The Successor Agency (Agency) is the successor entity to the former Long Beach Redevelopment Agency (RDA), which was dissolved by action of the State legislature on February 1, 2012. The Successor Agency is implementing the outstanding obligations of the former RDA, including planned and ongoing Capital Improvement Projects. These projects total \$22.4 million during FY14 through FY18 and include park development, improvements to streets and pedestrian rights-of-way, and construction of libraries and public safety facilities.

The Agency is working with the Departments of Parks, Recreation and Marine and Public Works to create open space and recreational opportunities in underserved areas of Central and North Long Beach. A new neighborhood library in North Long Beach will also enhance resources for residents of that area. Street enhancements are also ongoing in North Long Beach with median improvements to Atlantic Avenue and Artesia Boulevard. Improvements to Pine Avenue will help enhance the residential community in Downtown Long Beach as well as draw additional visitors. The construction of the new East Police Station will ensure that residents and businesses in that

area receive effective safety protection. Finally, the Agency is supporting construction of the Deukmejian Courthouse by funding off-site improvements.

publication attributable to future funding and/or anticipated budget adjustments not yet posted to the CIP. Please note that calculated totals may reflect rounding.

**11. Water** - Planned capital improvements to the City's water and sewer system encompass a wide range of projects. The Water Department will continue replacing aging infrastructure that is approaching the end of their useful life including, but not limited to; water pipelines, valves and meters. In addition, the Department is continuing with its well and water tank rehabilitation projects.

The Sewer CIP budget reflects a significantly increased investment in infrastructure, as the Department moves forward with a programmatic CIP based on an updated Sewer Master Plan.

### **Using the CIP**

The Funding Summary section provides an overview of the CIP for programs that have new funding in FY 14. It displays the proposed budget for each capital program including the fund amount and funding source.

The program sections are organized by the type of capital investment. For Public Works managed projects (sections 1-6) and Airport managed projects (section 7), the program pages contain the following:

- Map - location identification of the new proposed FY 14 capital projects
- Section Summary - an overview of the section from program inception through FY 13 and proposed budget amount for each capital project receiving funding in FY 14. Please reference the Program page example on next page. The Program page contains the following:
  1. The program title
  2. The lead managing department and contact information
  3. The program number
  4. A brief program description
  5. Work to be initiated in FY 14
  6. Estimated schedule for FY 14
  7. Proposed FY 14 new funding
  8. Program historical summary

The Funding Detail section towards the back of the book reflects the current carryover balances and the proposed FY 14 CIP budget. Due to the all-years nature of CIP funding, some projects may show a negative carryover at the time of

# Fiscal Year 2014 Capital Improvement Program

## Glossary

**AB2766:** This funding source was enacted to support programs that reduce air pollution from motor vehicles. Funds are collected by the Department of Motor Vehicle (DMV) and subvented to the South Coast Air Quality Management District (AQMD) for disbursement. The City receives these funds to implement programs and measures that reduce air pollution from motor vehicles mandated by the requirements of federal and state Clean Air Acts and the Air Quality Management Plan (AQMP).

**AB2928:** The State Assembly Bill that established legislation for the Traffic Congestion Relief Fund in the State Treasury for allocation of street and road funds to cities and counties for maintenance and reconstruction. This funding source was replaced in 2002 by the Transportation Congestion Improvement Act. See State Proposition 42.

**Americans with Disabilities Act of 1990 (ADA):** A Federal law enacted to provide for the protection of individuals with disabilities. This protection ranges from prohibitions against discrimination in employment to specific requirements for modifications of public facilities and transportation systems.

**Airport Area Assessment District:** The assessment district formed for the purpose of constructing upgrades in the airport area to improve traffic flow. The upgrades include street widening, grade separation, dedicated turn lanes, traffic signals, and signage. See Assessment District.

**Airport Capital:** A sub-fund of the Airport Fund. The non-grant portion of the Airport Fund capital expenditures. See Airport Fund.

**Airport COPS:** Certificates of Participation issued by the Long Beach Airport to fund capital improvements. See Certificates of Participation.

**Airport Fund:** The fund designation used to account for revenues and expenditures applicable to the operation and maintenance of the Long Beach Airport and its leaseholds. The major revenue sources consist of revenues related to airport operations leases and grants. The Airport Fund is an Enterprise Fund. See Enterprise Fund.

**Airport Passenger Facility Charges:** The amount added to the passenger airline ticket to provide a funding source for airport improvements.

**Appropriation:** An authorization granted by the City Council that permits officials to make expenditures and incur obligations for specific purposes.

**Assessment District:** A separate local government entity formed to provide specific local public services. Assessment districts can be established to provide a single service such as sewage treatment or to provide multiple services such as police and fire protection, parks and recreation facilities, and water distribution systems. Property owners within the assessment district's boundary pay into the district in direct proportion to the benefits or services they receive.

**Bond:** A method of financing long-term debt, issued by a government or private corporation, which bears interest.

**Budget:** A plan of anticipated expenditures and revenue for a certain period.

**California Energy Commission:** California's primary energy policy and planning agency.

**Caltrans:** The State of California Department of Transportation. Caltrans administers both U.S. Department of Transportation grants and its own grants for improvements to streets and highways.

**Caltrans Construction Cooperative Grant:** A grant issued by Caltrans for the City of Long Beach to provide various services in connection with the State's Interstate 710 construction project.

**Capital:** Assets that add to the long-term net worth of the City.

**Capital Improvement:** Construction or major repair of City-owned buildings and infrastructure which helps meet health, safety, and legal concerns and mandates, prolongs the life of City assets or avoids or minimizes future repair costs, benefits the community and supports goals articulated in the City of Long Beach Strategic Plan, has potential to generate operating savings or increase productivity, and is consistent with the City's General Plan.

**Certificates of Participation (COPS):** Interest-bearing debt instruments sold to investors by a non-profit agency to finance construction. The agency then leases the facility and uses the revenues to repay the debt.

**CFD No. 5 Bond:** See Community Facilities District (CFD) No. 5 Bond.

**CFO:** Chief Financial Officer.

**CIP Category:** A group of similar programs organized into a major section of the CIP budget document.

**Civic Center 1997A Bond:** A bond issued in 1997 by the Long Beach Finance Authority to fund various capital improvement projects in the Civic Center Complex.

**Civic Center Capital:** A sub-fund of the Civic Center Fund. The non-bond portion of the Civic Center Fund capital expenditures. See Civic Center Fund.

**Civic Center Fund:** The fund designation used to account for revenues and expenditures applicable to the operation and maintenance of the City Hall Complex and the Main Library Complex. The major ongoing revenue source to the Fund is rental payments from the departments occupying the facilities.

**Coastal Conservancy Grant:** State bond proceeds used to provide grant funds for pre-approved projects that improve public access to the coast and bay shores. Established in 1976, the California Coastal Conservancy is funded largely by State bonds.

**Community Development Block Grant (CDBG):** Federal entitlement funds (based on various criteria) received by the City of Long Beach from the U.S. Department of Housing and Urban Development (HUD) for the purpose of benefiting low and moderate-income areas and disabled residents.

**Community Facilities District (CFD) No. 5 Bond:** The 2000 Special Tax Bonds issued to finance the acquisition and construction of certain street and other public improvements for the Long Beach Towne Center.

**Construction Support:** Engineering work during the construction process, which ensures that projects are constructed in accordance with design parameters and specifications. Primary construction engineering functions include construction, inspection, laboratory services, field surveys, and design plan updates or interpretation.

**Contract Award Process:** Procurement preparation for Council award and all pertinent contract documentation prior to the initiation of construction.

**Debt Service:** The principal and interest payment on borrowed money according to a predetermined schedule.

**Department of Boating and Waterways (DBAW):** A State agency that provides grants and loans for improvements in the Tidelands areas of the City.

**Design:** The process of identifying project options, developing a project scope, conducting feasibility analyses, and creating plans, specifications, and estimates for a capital improvement. Primary design engineering functions include drafting, design, development of specifications, and traffic engineering.

**Economic Development Administration (EDA):** Created by Congress pursuant to the Public Works and Economic Development Act of 1965 to generate new jobs, retain existing jobs, and stimulate industrial and commercial growth in economically distressed areas of the United States.

**Edison Grant:** A grant received from Edison International under the LED Traffic Signal Rebate Program to provide for more energy efficient traffic signals.

**Environmental Enhancement and Mitigation Program (EEMP) Grant:** Annually, the EEMP offers grants for projects to mitigate the environmental impacts caused by new or modified state transportation facilities. These grants are offered to local, state, and federal governmental agencies. The EEMP was established in 1989.

**EI Dorado Regional Park Development Grant:** A National Park Service federal grant administered by the State Department of Parks and Recreation to upgrade the EI Dorado Park campsites.

**Enterprise Fund:** The fund designation used to account for City operations that are financed and operated in a manner similar to private business enterprises. The intent of the City in using this type of fund is to determine that the costs (expenses, including depreciation) of providing these services to the general public on a continuing basis are financed or recovered primarily through user charges. The City's Enterprise Funds include Airport, Development Services, Gas, Refuse/ Recycling, Sewer, Towing, Water, and SERRF.

**Environmental Protection Agency (EPA) Grant:** Federal funds used to address environmental issues for pre-approved projects.

**FAA:** Federal Aviation Administration.

**FAA AIP Program Grant:** An Airport Improvement Program (AIP) grant from the FAA to construct capital improvements for pre-approved projects at the Long Beach Airport.

**FEMA:** Federal Emergency Management Agency. Provides funds, services, hiring, and post-disaster assistance for response and recovery in the event of natural disasters.

**FEMA HMGP:** The FEMA Hazard Mitigation Grant Program. The Governor's Office of Emergency Services (OES) administers this program in California.

**Fiscal Year (FY):** A designated time frame which identifies the beginning and ending dates for recording an entity's financial transactions. The fiscal year for the City of Long Beach is from October 1 through September 30.

**Fleet Capital:** A sub-fund of the Fleet Fund. It is comprised of the non-grant and non-bond portion of the Fleet Fund capital expenditures. See Fleet Fund.

**Fleet Fund:** The fund designation used to account for revenues and expenditures applicable to the City's operation, maintenance, and timely replacement of the City's fleet of vehicles and equipment. There are two major sources of ongoing revenue for the Fund, Fleet Services charges to the City departments and land rental payments.

**Fund:** An accounting entity with a self-balancing set of accounts recording financial resources and transactions for specific activities.

**Fund Type:** A classification term used to group funding sources into specific categories of government functions or services.

**Funding Source:** The specific source of appropriated funds.

**FY 13 Estimated Expenditures:** Year-to-date actual expenditures plus anticipated expenditures up to fiscal year-end. Also known as "Estimates to Close" (ETC).

**FY 13 Estimated Carryover:** Unspent funds carried over from prior fiscal years that become part of the FY 14 appropriation (ITD FY 13 Budget less ITD FY 12 Actuals and FY 13 ETC).

**FY 14 New Budget:** The new allocation of monies that is part of the FY 14 budget appropriation.

**Gas Capital:** A sub-fund of the Gas Fund. This is the non-grant portion of the Gas Fund capital expenditures. See Gas Fund.

**Gas Fund:** The fund designation used to account for revenues and expenditures applicable to activities associated with the transmission and distribution of natural gas to the City's users. The Gas Fund is an Enterprise Fund. See Enterprise Fund.

**Gasoline Tax Street Improvement Capital:** A sub-fund of the Gasoline Tax Street Improvement Fund. This is the non-grant portion of the Gasoline Tax Street Improvement Fund.

**Gasoline Tax Street Improvement Fund:** The fund designation used to account for revenues and expenditures of gasoline tax funds apportioned under the State Streets and Highways Code, as well as other sources dedicated to transportation improvements. Expenditures may be made for any street-related purpose on the City's system of streets, including maintenance. In addition to the gasoline tax revenue from the State of California, other transportation-related revenue sources include funding from the Federal Transportation Equity Act for the Twenty-First Century (TEA-21) and the State Traffic Congestion Relief Fund and State Proposition 42 (AB2928).

**General Capital Projects Fund:** The fund designation used to account for the all-years Capital Improvement Program with multiple funding sources, including the General Fund that pays for the City's general projects.

**General Fund:** The fund designation used to account for financial resources applicable to the general governmental operations of the City of Long Beach. The largest sources of revenue for the General Fund are property taxes, sales taxes, utility users taxes, and motor vehicle license fees.

**Grants:** Disbursement of assets from another government agency or entity to be expended for a pre-approved purpose, activity, or facility.

**Highways-Through-Cities Grant (HTC):** A Los Angeles County financial aid program to assist Cities with their major and secondary highway rehabilitation projects. This is a discretionary program based on each Supervisor's decision regarding which projects to assist in the cities within their district. Financing is provided by each County Supervisor District's Road Construction program allocation of State gas tax funding.

**HBRR:** Highway Bridge Rehabilitation and Replacement Program. See TEA-21 HBRR.

**Health Fund:** The fund designation used to account for revenues and expenditures applicable to the support of the operations of the Department of Health and Human Services.

**HVAC:** Heating, ventilation, and air conditioning.

**Inception Through FY 12 Actuals:** The aggregate expenditures from the initial expenditures through Fiscal Year 2012.

**Inception Through FY 13 Budget:** The aggregate budgeted appropriations from the initial appropriation through Fiscal Year 2013.

**Internal Service Fund:** The fund designation used to account for the finance of goods and services provided by one City department to another on a cost-reimbursement basis, e.g., computer services, fleet services, etc., including depreciation.

**ISTEA:** Intermodal Surface Transportation Efficiency Act (of 1991). The Transportation Equity Act for the Twenty-First Century (TEA-21) superseded this funding source in 1998. The Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) superseded TEA-21 in 2005.

**LED:** Light Emitting Diode. A component of an electronic display.

#### **Long Beach and Los Angeles Harbor**

**Contributions:** Monies received from the Long Beach and Los Angeles Harbors to fund various street improvements to improve the traffic flow out of the Long Beach and Los Angeles harbor areas.

**Los Angeles County Grant:** Grants issued by the County of Los Angeles to the City of Long Beach to fund various capital improvement projects.

**MAP-21:** The authorized bill that governed United States federal surface transportation spending. The bill was signed into law by President Bush on August 10, 2005 and expired on September 30, 2009 but Congress renewed its funding formulas ten times after its expiration date, until replacing the bill with Moving Ahead for Progress in the 21<sup>st</sup> (MAP-21) Century Act in 2012. The \$286.4 billion measure contained a host of provisions and earmarks intended to improve and maintain the surface transportation infrastructure in the United States, including interstate highway system, transit systems around the country, bicycling and pedestrian facilities, and freight rail operations.

**Marina Capital:** A sub-fund of the Marina Fund. The non-grant and non-loan portion of the Marina Fund capital expenditures. See Marina Fund.

**Marina Fund:** The fund designation used to account for the revenues and expenditures applicable to the operation, maintenance, and development of the City's marinas in the Tidelands area.

**Measure D:** In November 2010, Long Beach voters approved Measure D, a City Charter amendment clarifying the language related to the City Council's authority over the administration of all oil operations, including those in the Harbor District.

**Measure R:** A ballot measure proposed by the Los Angeles County that was passed in 2008. This increases the county sales tax by one half-cent to fund transportation projects. Collection of Measure R sales tax revenue commenced on July 1, 2009.

**MTA Grant:** State and Federal funding awarded to the City of Long Beach through the Metropolitan Transportation Authority (MTA) "Call for Projects".

**Non-point Source Pollution (NPS):** Water pollution which originates from many different sources rather than one specific, identifiable source. NPS occurs when rainfall, irrigation waters, and water habits (washing cars/pets) create a flow over land and impervious surfaces and are deposited into the receiving waters via the storm drain system.

**Park Impact Fees:** Fees collected from new residential developments used to mitigate impact on Parks, Recreation and Marine facilities.

**Program:** A specific undertaking for the delivery of a capital improvement including procurement, construction or installation of facilities or related equipment.

**Proposition A:** A source of funding from the Los Angeles County sales tax of one-half cent used exclusively to construct, improve, and maintain mass transit services and facilities. See Transportation Fund.

**Proposition 1B (Transportation Bond):** Funding derived from Budget Bill: SB78 and Trailer Bill: SB88 and implemented as "The Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006" passed by the voters in November 2006. This authorized the state to sell approximately \$20 billion of general obligation bonds to fund transportation projects to relieve congestion, improve the movement of goods, improve air quality, and enhance the safety and security of the transportation system.

**Proposition C:** A source of funding from the Los Angeles County sales tax of one-half cent used to construct, improve, and maintain mass transit services and facilities. This funding also provides an expanded list of eligible project expenditures including: congestion management programs, bikeways and bike lanes, street improvements supporting public transit service, and pavement management system projects. See Transportation Fund.

**Proposition C MTA Grant:** See MTA Grant.

**Proposition 42:** See State Proposition 42.

**Public Safety Facilities Capital Improvements**

**Lease Revenue Bond:** The 2002 bond issued by the Long Beach Finance Authority to finance public safety facility capital improvement projects.

**Rainbow Harbor Area Fund:** The fund designation used to account for revenues and expenditures applicable to the operation, maintenance, and development of the City's Rainbow Harbor area.

**Rainbow Harbor Capital:** A sub-fund of the Rainbow Harbor Area Fund. The non-grant and non-loan portion of the Rainbow Harbor Area Fund capital expenditures.

**Safe Routes to School Program:** Administered by Caltrans, this 2003 program provides state and federal funds for projects that protect the safety of children traveling to and from school. Projects were developed through collaboration with the Long Beach Unified School District.

**SERRF Refunding 03 Bonds:** The 2003 refunding bonds for the finance of the construction of the Southeast Resource Recovery Facility (SERRF).

**Sewer Capital:** A sub-fund of the Sewer Fund. The non-grant portion of the Sewer Fund capital expenditures. See Sewer Fund.

**Sewer Fund:** The fund designation used to account for revenues and expenditures applicable to the operation, maintenance, and replacement of the City's sewer system in a cost effective manner. The major sources of revenue include a water usage charge based on water that will enter the sewer system and a service charge based on the size of the customer's water meter. The Sewer Fund is an Enterprise Fund.

**Skylinks Golf Course 03 Bonds:** The 2003 bond issued by the Long Beach Finance Authority to finance improvements to the Skylinks Golf Course.

**South Coast Air Quality Management District (SCAQMD):** Agency responsible for preparation of the state implementation plan (SIP) applicable within its boundaries, adoption of control regulations for stationary sources, and implementation of indirect source and transportation control measures.

**State Bond Act of 1988:** The 1988 bond issued by the State of California to fund various parks and recreation projects.

**State Grant – California Endowment Fund:** State funding awarded to the City of Long Beach to establish a Latino Diabetes Prevention and Management Program.

**State Grant – Energy Commission:** Funding authorized by Assembly Bill 970 and administered by the California Energy Commission (CEC). These funds were used to purchase and install light-emitting diode (LED) traffic signals and battery back up systems.

**State Grant – Public Libraries:** Funding for new library facilities provided under the California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2000.

**State Implementation Plan (SIP):** The 1970 Clean Air Act requires each state to develop a state implementation plan to attain National Ambient Air Quality Standards (NAAQS) by the applicable attainment deadlines. SIPs must be approved by the Federal Environmental Protection Agency.

**State Library Bond:** California Reading and Literacy Improvement and Public Library Construction and Renovation Bond Act of 2000 (Proposition 14). The bond proceeds are designated for site acquisition, new building construction, remodeling, renovation, and upgrading electrical and telecommunications systems.

**State Proposition 12 Bond:** Funding derived from Assembly Bill 18 and Senate Bill 1147 and implemented as the Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Act of 2000. The program includes entitlement (funding for cities based on population) and competitive grants for improvement of park land and facilities.

**State Proposition 13 (Costa-Machado Water Act of 2000) - Coastal Non-point Source Program:** A source of funding from the State Water Resources Control Board (SWRCB) for the Los Angeles River and Colorado Lagoon California Beaches Initiative projects.

**State Proposition 40 Bond:** Funding derived from the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act of 2002. Proposition 40 provides both entitlement and competitive grant programs to California cities for improvement of community recreation areas.

**State Proposition 40 Water Board Grant:** Funding derived from the SWRCB from the Clean Beaches Initiative. This grant was obtained for the remediation of the Colorado Lagoon.

**State Proposition 42:** Funding derived from Assembly Bill 2928 and implemented as State Transportation Congestion Improvement Act, passed in 2002. This requires sales and user taxes on motor fuels to be used for public transportation, city and county road repairs and improvements, and state highway improvements.

**State Proposition 46 Jobs Housing Balance Incentive Grant:** The Housing and Emergency Shelter Trust Fund Act of 2002. This authorized the award of a one-time \$25 million grant for cities and counties meeting the terms and conditions of the program for the 2001 calendar year. The City obtained this grant as part of the matching fund requirement for the MacArthur Park Branch Library project.

**State Transportation Improvement Grant:** Federal funds from the Department of Transportation given to the State of California for major transportation projects. This funding has been used primarily for Citywide street repair and improvements.

**State Water Bond 2000:** Funding derived from the Safe Drinking Water, Clean Water, Watershed Protection, and Flood Protection Act of 2000. The funds are administered by the SWRCB for non-point source pollution control, watershed management plan development and implementation, wastewater recycling, and the protection of various targeted watersheds.

**TDA-SB821:** Transportation Development Act funding from sales tax receipts as specified in the California Streets and Highways Code. The TDA SB-821 is the Senate Bill that established legislation for the Transportation Development Act.

**Transportation Equity Act for the Twenty-First Century (TEA-21):** Enacted on June 9, 1998, this federal legislation authorizes the Federal surface transportation programs for highways, highway safety, and transit. TEA-21 provides states with the flexibility to set their own transportation priorities and to explore creative financing mechanisms within certain guidelines. TEA-21 supersedes the 1991 ISTEA program.

**TEA-21 HBRR:** Highway Bridge Replacement and Rehabilitation funds used specifically for bridges within the city limits. See TEA-21.

**TEA-21 MTA Grant:** See MTA Grant.

**Temple/Willow Bond:** Bonds issued by the City to fund the construction of the new Fleet and Towing facility located on the corner of Temple Avenue and Willow Street.

**Tidelands Operations Capital:** A sub-fund of the Tidelands Operations Fund. The non-grant and loan portion of the Tidelands Operations Fund capital expenditures. See Tidelands Operations Fund.

**Tidelands Operations Fund:** The fund designation used to account for revenues and expenditures applicable to the operations, maintenance, and development of the convention center and beaches in the Tidelands area.

**Traffic Mitigation Program:** The goal of the Program is to relieve arterial congestion, accommodate planned growth, and implement specific programs including street widening, left turn pockets, parking prohibition, off-street replacement parking, and traffic signal synchronization. The City receives the monies from the payment of Transportation Improvement Fees. See Transportation Improvement Fees. The Traffic Mitigation Program monies are appropriated in the Capital Projects Fund.

**Transportation Fund:** The fund designation used to account for revenues and expenditures applicable to the City's share of an additional one and a half percent sales tax which was approved by the electorate and is collected by the County of Los Angeles to finance certain transportation projects (Propositions A, 1B and C).

**Transportation Improvement Fees:** Fees collected from land developers to mitigate cumulative traffic impacts. Sometimes referred to as Transportation Development Fees. See Traffic Mitigation Program.

**TSM-State Grant:** Traffic System Management funds administered by the California Department of Transportation (Caltrans) for traffic-related improvements. Receipt of the grant funds is contingent upon Caltrans' approval of the proposed projects.

**Upland Oil Revenue Fund:** An oil fund used to account for proceeds from oil operations north of the mean high tide in Long Beach, oil fields of working interest of Signal Hill east and west, Recreation Park

on the north side of 7<sup>th</sup> Street and Marine Stadium. Revenues are used to spur investment opportunities in one-time capital improvements, budget requirements, and essential needs. The Upland Oil fund will allow for important contributions to public safety, infrastructure, libraries, parks, recreation, and technology.

**Urban Area Security Initiative (UASI):** A grant awarded by the U.S. Department of Homeland Security to the City of Long Beach to fund planning, equipment, training, and personnel costs associated with the protection of critical infrastructure in and around the Long Beach Urban Area.

**Water Fund:** The fund designation used to account for revenues and expenditures used to meet the water needs of the citizens of Long Beach with a dependable supply of high-quality water at a reasonable cost. The major sources of revenue include a volumetric charge for water used by customers and a service charge based on the size of the customer's water meter. The Water Fund is an Enterprise Fund. See Enterprise Fund.

**West Long Beach Business Park Assessment District:** The assessment district established to fund various street improvements in the West Long Beach area. See Assessment District.
