Subject: Support for a Transformative Housing Element

-EXTERNAL-

Dear City Council,

 I urge you to adopt policies this year that legalize more housing, make housing easier to build, fund affordable housing and end homelessness, and strengthen tenants' rights.

 Ensure that our city creates a housing element that accords with state law and expert recommendations by doing the following:
 - Incorporate an estimate of the likelihood of development and the net new units if developed of inventory sites, to provide a realistic estimate of future housing production on parcels where redevelopment is likely to occur.
 - Use an HCD-recommended "safe harbor" methodology for forecasting future ADU production.
 - Prioritize high-opportunity census tracts and well-resourced areas (e.g. near transit, jobs, schools, etc.) when selecting sites for lower-income housing opportunities.
 - Include the HCD-recommended buffer of at least 15-30% extra capacity in the site inventory, to avoid violating the No Net Loss requirement.

 Sincerely,
 ANDREW ALEXANDER

-EXTERNAL-

Good evening City Council,

I am a resident of District 2 and writing because of loud noise at Junipero Beach lot and the rows of unlicensed businesses on the weekends. The City Manager acknowledges that these businesses don't have licenses or permits, but does nothing to address it. There is even a vendor who sells alcohol without a liquor permit and the city looks the other way. . Why is the city allowing selective enforcement of laws, including business licenses and noise violations. Brent Dennis has had several complaints filed against him and he still does nothing. YOU have made living on the beach in this area horrible and the residents have been subjected to amplified noise for the last 4 months.

When I get my business license renewal, I will expect not to have to pay anything as you selectively pick and choose who doesn't have to have a business license. I have lived in Long Beach for almost 15 years, and I have never seen the city in worse condition. It is a tragedy to see what is going on in this city...high crime, feral cats on the streets, litter, beaches and parks not safe, the homeless camps off the 710. Shameful

Michelle Baker

Less Density. More parking.

Thank you.

-EXTERNAL-

I am writing to strongly oppose any Vaccine Passport from being implemented to Long Beach and/or the businesses in Long Beach. Implementing Vaccine Passports would crush medium and small businesses in Long Beach, and cause a divide throughout the patrons and citizens of Long Beach like none we've ever seen in the past. Vaccine Passports create a 2-tier social/business class, and is Communism to those operating under that system.

Sincerely,
David Schlute
