Dear Ms. King,

Clean Energy proudly serves as the City of Long Beach Liquefied Natural Gas (LNG) fuel supplier. In 2019, we were awarded a two-year contract with two single year options. The City's LNG delivery rate for the initial two-year term was \$0.377 per LNG gallon and was then increased to \$0.392 for option year 1.

On December 28th, Clean Energy received a one-year extension request. We propose to extend the contract with a price increase to the delivered rate of \$0.026 per LNG gallon. This 6.56% increase is in accordance with Los-Angeles-Riverside-Orange County CPI Adjustment. Based on the City's annual LNG fuel consumption of 200K gallons, the projected increase to Option Year 2 is \$5,200.

Line Item	Base Term (1/15/2019 – 1/14/2021)	Option Year 1 (1/15/2021 – 1/14/2022)	Option Year 2 (1/15/2022 – 1/14/2023)
CE Delivered Rate	\$0.377	\$0.392	0.418

Thank you in advance for your consideration of this request, and please let me know if you have any questions.

Sincerely,

John Hodgkinson
