4. (22-011EC) Recommendation to conduct a study session on the 2021 Long Beach Independent Redistricting Commission and to provide recommendations on Ethics Commission involvement in the redistricting process for future years; and if appropriate, request staff to prepare a draft report to return to the Commission at a later date.	Dave Shukla	dave.shukla@gmail.com		Hello, Please reference my City Council comments as the work of the IRC has come up on 1/4/2022 and 2/08/2022: https://districtr.org/plan/94612 Again, made using a method a 12 year old could understand and replicate. Each map drawing meeting after the release of the Draft Maps, I kept showing, in real-time, that there were very good reasons not to a) retrogress my district to 1980s boundaries that put all the systemic risk of the oil and gas sector, principally the Long Beach Unit, locally in town squarely on my district (3rd, er... "C") , b) draw a map that inscribed further environmental apartheid, c) focus the map on the interests of any one individual, or any one individual's residence. Yet, the map looks like a radical corporate rebranding of town, planned with the LBCC logo re-do a few years prior, from the perspective of SCE's transmission yard on the NE part of the PCC campus. This draft report attached is embarrassing for this City, folks. DS CD3	2/16/2022

PUBLIC COMMENT	Dave Shukla	dave.shukla@gmail.com		<p>Hello,</p> <p>The Ethics Commission for the City of Long Beach needs to examine bringing the Long Beach Independent Redistricting Commission in line with the State Redistricting Commission (and Statewide / Nationwide best practices) in three general areas:</p> <ul style="list-style-type: none"> - Data generation, sharing and access - Having proportional political representation: There needs to be equal space for 'No Party Preference' members, in equal number to that from either political party. - Empowerment of the IRC to act independent of the City Attorney, City Manager, and City Clerk's offices <p>Thanking you, DS CD3</p>	2/16/2022
