CHAIR AND PLANNING COMMISSIONERS
City of Long Beach
California

RECOMMENDATION:

Recommend that the City Council adopt a resolution certifying the Local Development Report and its conformance with the Congestion Management Program. (Citywide)

APPLICANT: City of Long Beach
333 W. Ocean Blvd
Long Beach, CA 90802

DISCUSSION

Public concern over the impacts of traffic congestion and air pollution on the State's economic vitality and quality of life contributed to the passage of Proposition 111 in 1990. Proposition 111 instituted the Congestion Management Program (CMP) and an increase in State gas tax for traffic reduction measures. The intent of this State-mandated program (§65088 et seq.) is to address the impacts of local growth on the regional transportation system. The CMP comprises two main program areas: (1) traffic and building permit data collection and analysis, and (2) action plans to reduce traffic congestion on regional highways and corridors.

Traffic congestion is, in part, the result of intra-regional travel; as a result, the ability of one city to address traffic congestion within its jurisdiction is limited. Land use and transportation planning occurs individually within the 89 jurisdictions in Los Angeles County. The CMP encourages cities and counties to address traffic congestion on a regional scale. By utilizing a regional approach, the CMP seeks to maximize the effectiveness of local efforts to reduce traffic congestion and air pollution. The Metropolitan Transportation Authority (MTA), which administers the CMP in Los Angeles County, uses the traffic and building permit data collected from cities and the County to create a "snapshot" of how the County's highways and roadways operate as a system. This understanding of regional traffic congestion, and its relationship to local growth and transportation improvements, aids cities and the County in selecting the best mix of projects and strategies to reduce traffic congestion.

In addition, the CMP requires cities and counties to offset a portion of the impact that their new development has on regional mobility by implementing coordinated transportation

improvements. Previously, cities and the County demonstrated compliance with the CMP by utilizing a point system – implementing tracking debits from new developments and credits from capital improvements and strategies to reduce traffic congestion – where cities and the County must have a positive balance of credits over debits to maintain CMP conformance and to ensure receipt of Proposition 111 State gas tax funds.

However, in August 2003, the MTA Board authorized a Nexus Study to explore the feasibility of implementing a congestion mitigation fee to meet CMP Deficiency Plan requirements. While this study is underway, the CMP point system has been suspended. Nevertheless, the City is still required to certify and report building permit data on an annual basis.

In that regard, the Department of Development Services has prepared the Local Development Report (LDR) for the reporting year 2008-2009 (Exhibit A). The LDR is organized into three parts: New Development Activities, New Development Adjustments (i.e. demolition activity) and Exempt Development Activity. The major projects that were permitted during this reporting period include: 48 townhouses at 2021 Atlantic Avenue (Brookfield Homes), 46 units at 2355 Long Beach Boulevard (Meta Housing) and Long Beach Airport Parking Structure. As a result of current economic conditions, residential and commercial building permits have remained relatively unchanged for this reporting period.

The report must be certified by the City Council and submitted to the Metropolitan Transportation Authority by September 1, 2009.

GENERAL PLAN CONSISTENCY

The proposed 2008-2009 Local Development Report (LDR) of the Congestion Management Plan (CMP) is consistent with the goals and policies of the General Plan. The Congestion Management Program is intended to allow for growth balanced with transportation improvements that will mitigate traffic impacts. Traffic improvements attract businesses while improving the quality of life for residents. These efforts are consistent with the growth management and economic development goals of the General Plan.

Respectfully submitted,

**CRAIG BECK
DIRECTOR OF DEVELOPMENT SERVICES**

DEVELOPMENT TOTALS

RESIDENTIAL DEVELOPMENT ACTIVITY

Dwelling Units

Single Family Residential	14.00
Multi-Family Residential	399.00
Group Quarters	0.00

COMMERCIAL DEVELOPMENT ACTIVITY

1,000 Net Sq.Ft.²

Commercial (less than 300,000 sq.ft.)	78.00
Commercial (300,000 sq.ft. or more)	0.00
Freestanding Eating & Drinking	0.00

NON-RETAIL DEVELOPMENT ACTIVITY

1,000 Net Sq.Ft.²

Lodging	0.00
Industrial	164.00
Office (less than 50,000 sq.ft.)	285.00
Office (50,000-299,999 sq.ft.)	0.00
Office (300,000 sq.ft. or more)	0.00
Medical	0.00
Government	0.00
Institutional/Educational	65.00
University (# of students)	0.00

OTHER DEVELOPMENT ACTIVITY

Daily Trips

Replacement Airport Parking Structure	0.00
ENTER IF APPLICABLE	0.00

EXEMPTED DEVELOPMENT TOTALS

Exempted Dwelling Units	0
Exempted Non-residential sq. ft. (in 1,000s)	0

1. Note: Please change dates on this form for later years.

2. Net square feet is the difference between new development and adjustments entered on pages 2 and 3.

	0	Dwelling Units
Total Dwelling Units	0	
Total Non-residential sq. ft. (in 1,000s)	0	

Section I, Page 4

Exempted Development Definitions:

1. Low/Very Low Income Housing: As defined by the California Department of Housing and Community Development as follows:
 - Low-Income: equal to or less than 80% of the County median income, with adjustments for family size.
 - Very Low-Income: equal to or less than 50% of the County median income, with adjustments for family size.
2. High Density Residential Near Rail Stations: Development located within 1/4 mile of a fixed rail passenger station and that is equal to or greater than 120 percent of the maximum residential density allowed under the local general plan and zoning ordinance. A project providing a minimum of 75 dwelling units per acre is automatically considered high density.
3. Mixed Uses Near Rail Stations: Mixed-use development located within 1/4 mile of a fixed rail passenger station, if more than half of the land area, or floor area, of the mixed use development is used for high density residential housing.
4. Development Agreements: Projects that entered into a development agreement (as specified under Section 65864 of the California Government Code) with a local jurisdiction prior to July 10, 1989.
5. Reconstruction or replacement of any residential or non-residential structure which is damaged or destroyed, to the extent of > or = to 50% of its reasonable value, by fire, flood, earthquake or other similar calamity.
6. Any project of a federal, state or county agency that is exempt from local jurisdiction zoning regulations and where the local jurisdiction is precluded from exercising any approval/disapproval authority. These locally precluded projects do not have to be reported in the LDR.
