A New Agenda for the City

The construction ^{is} still ~~in~~
to Pine, that will not be finished,
in a year or more, is hidden
from view by cheap old plywood.

And is an unhygienic mess—it
should be covered up if not taken clothe
the bike shop, is preferable.

As near the bike shop is ^{the} ~~the~~
At least, a plastic interlaced, ^{Hannigan's} wall
with holes in it.

At least, a fence with peep holes in it
and metal fence with amazing construction job

To look at this amazing construction
of steel and concrete.

Re-steel, dent, and concrete

By the Olson construction company
is the environmental referee;

By the way, I am
building a monumental structure,
one which will last with all

Burrowing a monumental ~~g~~
a huge hole now, with all
the ground,

A huge hole now, with an
array of things around, i.e.
dinosaurs

→ now? Some of things known & others
Empty machines left diggers
As it frozen, in time the dig was not half finished
A red sign to advertise

the introduction sign to advance
the weekend post

the introduction of
our Fair City and be a welcome gift
has missing, however, small two letters,
be seen by all even this,

The missing bridge can be seen by all even this
and can be seen by all even this.
Near the Marina Pacifica shopping mall.
An important bridge to traffic and commerce
such as cars and trucks on a flat

An important bridge to train across
the estuary and vehicle crossings on a beach
below turgid sea

On embankment for pedestrian and vehicle traffic, it stands over the water below, turgid sea, a light house not perfect and damaged; however, slightly to lead but poorly.

A city with sketch artists
For portraits from cartoonists,
A mark for the tablet of art frolic,

A mark for the tourist narcissists.

That casts a spell, the tourist narcissists

A perfect sign which is looking

For something different to indicate particular tourists

For something to be convinced where

Are memorable to be convinced where

They were at ant for a source of comedy

Set up possibility in the contest

Set up possibility in the Long Beach Ant Association

To be held by the Long Beach Ant Association

To choose two cartoonists to be rotated

To choose two cartoonists to be rotated

And give a business license to them

And assure a spot on prime

And assure a spot on prime theaters,

In front of the movie theaters,

The most populated ^{area} there ready to spend, romantic,

The most populated there ready to spend, romantic,

The artist will be paid the minimum wage,

And what he makes on his savings:

The rest to him, one third

Getting to the city to ~~make up with~~ ^{Maple Leaf Pacific} shop

The book store there a doorway to a coffee shop

Even if small to other towns to go

The Metro rail has a station

The Metro rail and covers few at night.

In Long Beach and covers few at night

In cars each sizes of a bus

Six cars each sizes of a bus

And at a random night, 7 o'clock

And at a random night, 7 o'clock

As example: there was only twenty passengers.

As example: there was a discount riding ticket

If there was a discount riding ticket

After it would provide more revenue,

and still not be as crowded as the bus

Riding the rail but almost empty.

A couple of officers guarding it at arrival

And sometimes on it to trap criminals

On and off, surprise checking of tickets, and

For culprits and thieves and criminal intent

The police should take a class

In anger management

And visit the Museum of Intolerance
To desist bias and know what a police state can do, however,

And get credit for learning Spanish. Let

As that will come close to British dominant language

To move by Cambodian English will prevail.
However, and should, the majority and the nations

Adopt as a song for the CPY,
"The Autumn Leaves of Summer"

From the John Wayne movie "The Alamo",

Retirement and adventure.

If a grocery basket is bought

As it can be it might be done

With food stamps to defray the cost

And show faith and sincerity

The rest paid perhaps in installments of cash,
To salt the deal.

As a suggestion banks should
 provide postage stamps at cost
 And perhaps if having an account
 Two photocopies of documents free.
 The guard having nothing else to do
 should patrol the ^{in the year around the area}
 should be on call, a notary,
 wearing a tie and jacket,
 But a display badge on the lapel.
 And the cell phone ready.

Five years from now

the majority of the people
 In California will be Latino,

Natives to Mexico our closest neighbor,

Certainly very basic Spanish

Like "thank you" or "El Libro"

Should be taught along with English

In elementary school

Though in advanced classes,

Futur leaders should know both languages

10.

Funking places are a problem
 particularly in Belmont Shores,
 The ^{the very} fact it can't bring ^{the} tallest about
 Two hour parking maybe fine from meters;
 And garages not used might be rented
 Out by the owner for a monthly fee though
 And a liability from theft or damage & such good
 and so grand another experiment it might work
