

eComments Report for City Council Meeting Agenda of March 12, 2019

Item	Name	E-mail	Street	Neighborhood	City	State	Zip	Comment	Received
3. (19-0211) Recommendation to increase appropriations in the Capital Projects Fund (CP) in the Public Works Department (PW) in the amount of \$84,100, offset by the Fourth Council District one-time District Priority Funds transferred from the General Fund (GF) in the Citywide Activities Department (XC) to support sidewalk improvements at various locations.	Bob Livingstone	boblivy@gmail.com						Kudos to my Council Rep for using discretionary funds for actual improvements to the City rather than naming parochial things or conducting parties, parades or other hootenannies.	3/9/2019
14. (19-0207) Recommendation to forward a request from community members to the Housing and Neighborhoods Committee, and the Harbor Commission, to consider naming the new chambers at the Civic Center the Bob Foster Civic Chambers.	Bob Livingstone	boblivy@gmail.com						So many in LB history are just more deserving. Mayors Ray Kealer (arguably responsible for the port operation we have today), Ed Wade, Burton Chace (already has a named park), Tom Clark, Ernie Kell. If looking for involvement w/ Council & Port, how about Emmett Sullivan who gave more civic service to LB than anyone in the 20th Century? Jim Hankla oversaw more good and competent things within City Hall & the Port than anyone in history. And what happened to not naming things after the living?	3/9/2019
15. (19-0223) Recommendation to request City Manager to work with Urban Commons, The Wave team and other key stakeholders to determine the cost of a Feasibility Study pertaining to the development of a Gondola System connecting Downtown Long Beach with Queen Mary Island; and Request City Manager to work with Urban Commons to identify key stakeholders to create a multiparty partnership to conduct an initial Feasibility Study pertaining to the development of a potential gondola system connecting Downtown and Queen Mary, and identify potential public and private funding sources to begin the initial feasibility study.	Lucy Johnson	lucyjohanson1@gmail.com						I recommend a Feasibility Study be conducted pertaining to the potential development of a gondola system as proposed by Urban Commons and The Wave team. This system is used in many other cities worldwide, and would be a tremendous asset to our waterfront. Not only will it be tourist friendly, but will also eliminate much of the current automobile traffic now needed to move between downtown, the Aquarium of the Pacific and the Queen Mary. Please approve the recommendation in this agenda item.	3/12/2019
