Mayor O'Neill and Members of the City Council
City of Long Beach
333 West Ocean Boulevard
Long Beach, California 90802

RE: Agenda Item 30, May 24, 2005
Support for Termination of Negotiations with Sound Energy Solutions

Dear Mayor O'Neill and Members of the City Council:

The Board of Directors of the Wrigley Association urges you to formally terminate negotiations with Sound Energy Solutions ("SES/Mitsubishi") regarding a long-term natural gas supply and the feasibility of construction and operating interconnecting gas pipelines to the proposed liquefied natural gas ("LNG") facility, per the Memorandum of Understanding approved by City Council on May 13, 2003. This position is based on economic considerations.

An application for a LNG facility to be located 21-miles off the Ventura coast has been accepted by the U.S. Coast Guard. Offshore facilities require an additional capital investment of \$100,000,000 versus an on-shore site. Any company locating on-shore has a major competitive advantage. In addition, security and disaster response expenses for a land-based facility would be borne primarily by taxpayers. These costs would far exceed any local benefit resulting from decreased price for natural gas. Moreover, the City would be remiss in exercising its fiduciary responsibility by limiting negotiations to a single potential operator.

To resume negotiations on an exclusive basis before the Environmental Impact Report is certified is also unwise. There is already sufficient information based on the Sandia Report that the preferred mitigation strategy in high population urban areas is offshore operations. This approach is not only more prudent from a hazardous materials management position, but also greatly reduces the potential for adverse impacts on the City's budget.

Therefore, the Wrigley Association urges you to formally terminate negotiations with SES/Mitsubishi. Thank you for your time and consideration of our position on this matter.

Very truly yours,

A handwritten signature in cursive script that reads "Joan V. Greenwood".

Joan V. Greenwood, President

My name is Danial Nord. I have been a harbor area property and business owner for the past three years

- Unfortunately, I was a resident of Lower Manhattan during the 9/11 terrorist attacks
- I watched, stunned and powerless, as hundreds of people, terrorized by explosions and flames, leapt to their deaths from the upper floors of the World Trade Center.
- Unfortunately, we were not adequately prepared for this kind of tragedy. We were naïve. We did not expect it.
- We must take a cue from this recent disaster. We must learn from our experience. We must WAKE UP and be prepared for future incidents.

**WE MUST NOT ALLOW A LIQUIFIED NATURAL GAS FACILITY – A HUGE AND EASY TARGET FOR TERRORISTS - TO BE BUILT IN LONG BEACH.
THIS WILL DIRECTLY ENDANGER HUNDREDS OF THOUSANDS OF CITIZENS.**

I am not willing to sit idly by and watch a facility constructed which may inevitably lead to the destruction of our community. I already have seen thousands of people pulverized by explosions once, and that was enough. The ramifications have been disastrous for our country and our economy.

Let's learn from our experience and honor those who perished during the 9/11 attacks. Let's not set ourselves up for an even bigger disaster.

For those of you who feel that terrorism is unlikely, consider that the LNG terminal would be built on landfill between 3 earthquake faults.

However you choose to see it, an accident or incident could close the Ports of Long Beach and LA – crippling our national Economy and security. If you want to talk about a "JOB KILLER", think about it...

Let's think forward and look to domestic and alternative sources of energy. Let's not build infrastructure to support a dead-end and short sighted dependence on finite foreign fossil fuels.

The concerned citizens of the harbor area are depending on you to do the responsible thing: to knock this reckless, short sighted and irresponsible plan off the map.

The message is clear: We are not willing to be sitting ducks. We want to look forward to a positive future for our families, our friends, and our country.

NO LNG IN LONG BEACH

FREMONT

***CITY OF LONG BEACH
CITY COUNCIL MEETING***

The OPINION of Erica & Dennis Parker

LNG AS A SAFE FUEL & A CLEAN FUEL

LNG AS A COST-EFFECTIVE FUEL FOR CITY VEHICLES

LNG AS A WAY TO CLEAN UP THE ENVIROMENT IN LONG BEACH

***FREMONT FOREST GROUP CORPORATION SUPPORTS
LNG DEVELOPMENT***

FREMONT FOREST IS OWNED AND OPERATED BY ERICA PARKER WITH THE SUPPORT OF HER HUSBAND AND SIX CHILDREN.

Fremont Forest is a small business and run under the local 721 carpenters union. Fremont is the closest operating business to the proposed LNG site. Fremont has attended all the meetings from "day one" and has researched all the data on LNG development and shipments past and present. Erica and I would not support a project if the safety of our children and employees were at any risk. The design of the ships and storage tanks, and the safety steps to eliminate any spills, make this project safer than the chance of a fire at the gas station from static electricity while fueling.

The notion that an LNG facility in Long Beach would be a prime target for terrorist is, believing, that the terrorist think Long Beach would have the same impact to the United States as the "prime targets" like the Pentagon, the World Trade Center, and the White House, all places that have an impact on the entire country.

Thank you, for listening to our opinion.

Erica & Dennis Parker
