

eComments Report for City Council Meeting Agenda of September 20, 2011

Item	Name	E-mail	Street	Neighborhood	City	St	Zip	Comment	Received
14. (11-0953) Recommendation to request City Manager to advocate for the Long Beach Boeing facility as a possible site for the 737 re-engining project.	Larry Schmid	lschmid50@hotmail.com		7th District, James Johnson	Long Beach	CA	90807	Aircraft manufacturing brings far more economic benefits to the city than the airlines. Advocate for this project! However, additional engine work requires engine and flight testing. The result would be more traffic in and out of the airport and extended periods of engine testing on the ground. The Boeing engine test area is 1/2 mile from the Bixby Terrace neighborhood and will have a negative impact on the noise level in the area. New flights need to be matched with reduced airline flights.	9/20/2011
