PUBLIC COMMENT:	Tiara Simmons	fourwheelworkout@gmail.com			Long Beach	CA	90805	If this is duplicate, excuse it. Resident concern: Long beach does not pay enough attention to its disabled residents. I'm tired of being told write the mayor or council or go to a meeting. The mayor and council do not respond. It's almost as if it's not furry on four legs, part of the LGBTQ community, tech or monied, Long Beach doesn't want to hear about it. We pay taxes too. We vote, too. Remember, disability may include mobility issue, which takes going to meetings off the options list.	12/18/2016
9. (16-1145) Recommendation to authorize City Manager, or designee, to execute an agreement, and any related documents, with the Loyola Marymount University Center for Urban Resilience, to conduct a one-year study involving human and coyote conflicts in the City of Long Beach, in an annual amount not to exceed \$34,000, with an option to extend the study for two one-year terms, at the discretion of the City Manager. (Citywide)	Kathleen Steube	mike.kat.s@verizon.net			Long Beach	CA	90808	FINALLY some real steps forward to hopefully remove the Urban Coyote from Long Beach. As a 60 year resident in District 5, I know these coyotes have migrated into our area, they were NOT "here first"! I've seen live ones maim and kill domestic animals. I recently saw a dead one on Wardlow Rd. Imagine if a car with adults/children were to hit a 60 pound Coyote and veer off the road into a tree! They ARE NOT dogs and, so far, have been given a free pass. Time to do something before it's too late.	12/20/2016

(Citywide)	Theresa Hew	lthew1@yahoo.com			Long Beach	CA	90807	Just how many people have to be attacked before Long Beach traps and removes coyotes? What is the number that you are comfortable with? 5, 10, 40? This CUREs "study" is another co-existence group that will waste taxpayer money and continue to allow coyotes to reduce quality of life in our city. Coyotes belong in the wild not in the city. Wake up and stop relying on faux science and putting your constituents at risk!	12/20/2016
