

Excavation Material Waste Disposal

Board of Water Commissioners

May 13, 2021

Excavation Waste Details

- Excavation waste is created during normal operations and maintenance activities
- 12,500 tons per year on average

Crew Excavating Street

Why Do We Need Hauling Services?

- Newly detected contaminants
- Thresholds exceed current disposal facility limitations
- Contaminant levels dictate disposal facility locations

WD-17-21 Bid Summary Table

Dumpsite	Dirt and Soil	Concrete Debris	Asphalt	Mixed Load
<u>Azusa Land Reclamation</u>				
Total Carbon Chains < 500 ppm	\$44.00	\$40.70	\$40.70	\$56.10
<u>Simi Valley Landfill</u>				
Total Carbon Chains < 50,000 ppm	\$64.90	\$64.90	\$40.70	\$64.90
<u>Lancaster</u>				
Gasoline, Diesel, and Oil Carbon Chains < 8,000 ppm each	\$68.20	\$68.20	\$68.20	\$68.20
<u>Palmdale/Antelope Valley</u>				
Gasoline, Diesel, and Oil Carbon Chains < 14,000 ppm	\$69.30	\$69.30	\$49.50	\$69.30
<u>McKittrick/Kettleman Hills</u>				
Higher levels acceptable with passing fish bioassay	\$85.80	\$85.80	\$60.50	\$85.80

Thank you

Long Beach Water

Exceptional Water • Exceptional Service
