

CSULB Digital Rights Grant

City Council Meeting - May 16, 2023

Challenge

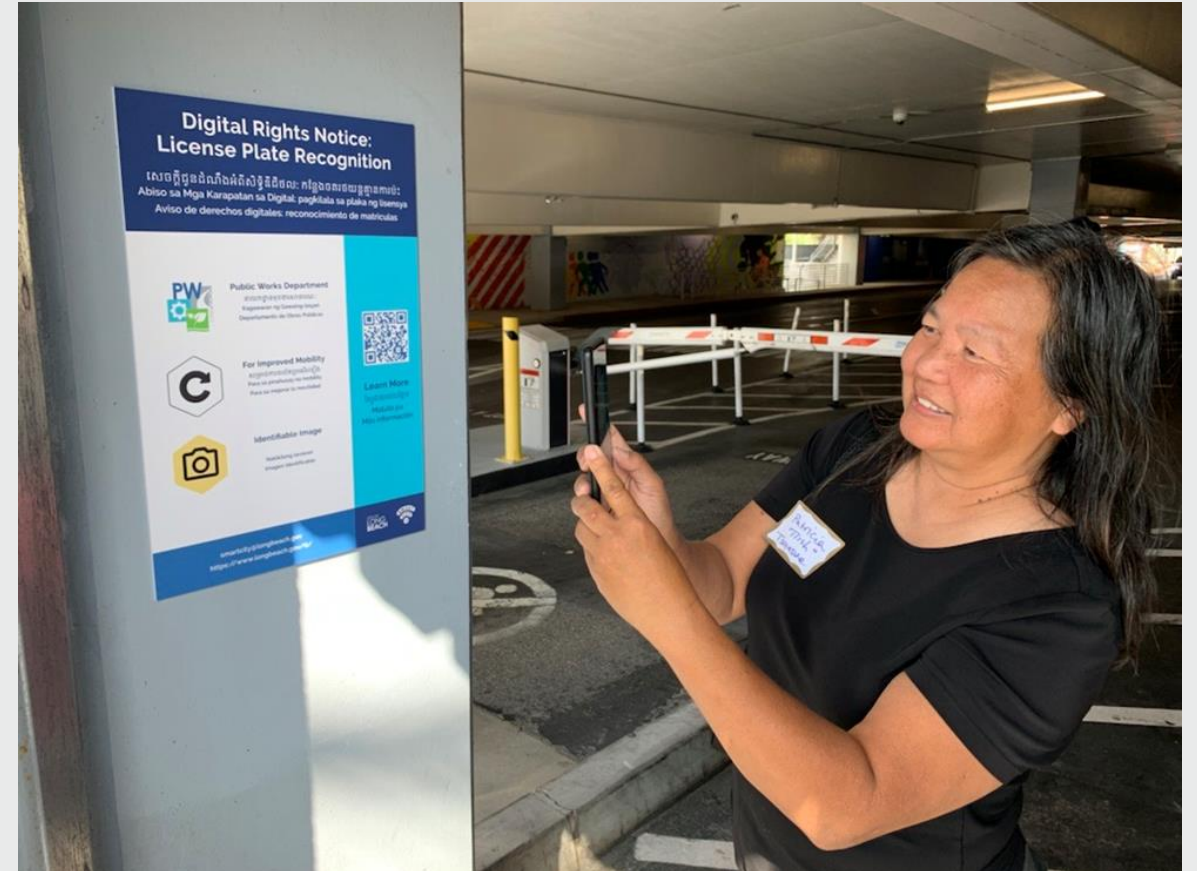

- The general public does not have an easily accessible way to learn about what technologies and data collection practices are used by the City of Long Beach.

Proposed Solution

- Deploy digital rights notice signage near City technology to promote transparency about these technologies and a web-based feedback application.

Grant Activities

- Deploy additional pilot digital rights signage on a temporary basis.
- Continue to learn more from the Long Beach community about their perceptions of data privacy and the proposed digital rights notice signage.
