RE: Land Use bills SB902, SB1120 AB725 AB3040 coming up for vote in the State Assembly

Senate Bills 902 and 1120 and Assembly Bills 725 and 3040 will end single-family neighborhoods.

I have to believe that you all are cognizant of the fact that the majority of the residents of Long Beach do not support high density construction in residential neighborhoods. With bills as important as these, I expect our council to **agendize the discussion to put forth a resolution from the City of Long Beach opposing them.** They are in the final lap of approvals and your participation to influence the vote is essential.

It's time to recognize that the YIMBY/NIMBY nonsense has nothing to do with this issue or these bills. The outcome of these bills does not benefit anyone but the developers. **Not a single unit of affordable housing is required by these bills.**

A Livable California Zoom telecon was held on Saturday hosted by South LA with over 300 participants including the Mayor of Beverly Hills and council members from surrounding cities. **Where was Long Beach?** This topic requires that you stand for your constituents. Doing nothing is the same thing as being in agreement.

We need you to do your job. We need you to represent us.

Livable California is a state wide organization with a distinguished membership that does research on State bills and notifies its membership on what needs to be done. Message below to rally those opposing these bills: <https://www.livablecalifornia.org/act-now-3-2/>

ACT NOW: Testify against the two worst bills, SB 1120 and SB 902. **On Tues. Aug. 18 call-in to the Assembly Appropriations Committee hearing.** Tell legislators these two bills will put every home in their district on the chopping block. For crucial call-in info, and the rules for testifying, go to this link: <https://www.livablecalifornia.org/aug-18-hearing-instructions/> The next step if this passes in committee will be a vote in the State Assembly.

Just once I'd like to get on one of these calls and hear *my council members* speaking up for us.
