I live two blocks from this proposed development. I STRONGLY SUPPORT this motion. The vacant parking lots at this location are a heat-trapping eyesore, located just steps from a major A Line train station. Our city has a mandate to create 26,000 housing units in the next 8 years, which can only be achieved by increasing density. This motion will remove a barrier to advance the construction of 345 residential units for new neighbors to enjoy our beautiful downtown. Please vote AYE!
