HONORABLE MAYOR AND CITY COUNCIL

City of Long Beach

California

## RECOMMENDATION:

Receive supporting documentation into the record, conclude the public hearing, and take the actions necessary to adopt the Fiscal Year 2021 budget as listed in Attachment A. (Citywide)

## DISCUSSION

On August 2, 2020, the City Manager's Proposed Budget for Fiscal Year 2021 (FY 21) was delivered by Mayor Garcia to the City Council and community for consideration. City Council budget meetings were held on December 17, 2019, and on May 19, August 4, August 11, August 18, and September 1, 2020. Additionally, Budget Oversight Committee (BOC) meetings and citywide community town hall meetings were also held throughout the month of August at which the Proposed FY 21 Budget was discussed. As a result of these meetings, there were 17 scheduled opportunities for public feedback, deliberation, and input. Additionally, input was solicited through the Long Beach Budget Priority Survey to obtain feedback on what the City's priorities should be. The survey was promoted on the City's website, along with OpenLB, which shows the budget visually, through Twitter and Facebook, and at the community meetings.

At the conclusion of the hearing, the City Council will amend the Proposed FY 21 Budget as it deems appropriate, and adopt the proposed budget as amended. As a result of the shortened timeframe for the budget process due to the COVID-19 pandemic, the numbers presented in the Proposed FY 21 Budget Book were estimates and did not yet include interdepartmental charges updates, grant and carryover clean-up, and other technical budget items. These figures have now been updated and are listed by fund group and department in Attachments B, C, and D, and are further described at the end of this letter. These updates have resulted in the total All Funds budget being revised from \$2.6 billion to \$2.8 billion. These changes do not reflect any substantive changes to the City Manager proposals but are rather technical and system updates, including updating the budget for grants and interdepartmental charges as described above.

There are three Ordinances to be considered for approval in Attachment A. The first Ordinance amends the Departmental Organization of the City (A-6). The second Ordinance approves Resolution No. WD-1429 (A-10), which establishes the rates and charges for the water and sewer service. The third is the Appropriations Ordinance (A-17), which officially appropriates the funding for the Adopted Budget (approved in A-3) and authorizes expenditures in conformance with the Adopted Budget. For the second and third Ordinances to become effective on October 1, 2020, the City Council must first declare an emergency to exist before adopting each Ordinance (A-9 and A-16).

There are also six Resolutions that provide for approval for the Master Fees and Charges Schedule (A-4), amend the Salary Resolution (A-7), approve the budget for the Harbor Department (A-8), approve the budget for the Water Department (A-11), establish the Gann Appropriations Limit (A-14), and declare a fiscal hardship for FY 20 and FY 21 under Measure B, authorizing the use of up to 50 percent Measure B reserves (A-15). There are also the following motions: approve the Mayor's Recommendations (A-1); approve the BOC Recommendations (A-2); amend the Proposed FY 21 Budget (A-3); approve the FY 21 One-Year Capital Improvement Program (A-5); approve the FY 21 Budget for the Long Beach Community Investment Company (A-12); and, approve the Harbor Revenue Fund Group transfer (A-13).

This matter was reviewed by Deputy City Attorney Amy R. Webber on August 26, 2020 and by Budget Management Officer Rhutu Amin Gharib on August 25, 2020.

### TIMING CONSIDERATIONS

In accordance with the City Charter, the Proposed FY 21 Budget must be adopted by September 15, 2020. Should the City Council fail to adopt the budget by that date, the City Manager's Proposed FY 21 Budget will be deemed the budget for the 2021 Fiscal Year. The Mayor has five calendar days from City Council adoption of the budget to use his veto authority. The City Council would then have until September 30, 2020, to override the veto action by the Mayor with a two-thirds supermajority vote (six Councilmembers).

### FISCAL IMPACT

The City Charter requires that the Appropriations Ordinance govern and control the expenditure and commitment amounts stated therein relating to City departments, offices, and agencies during each fiscal year. The total Proposed FY 21 Budget for all departments and fund groups is \$3,321,189,591, which comprises of \$2,781,088,305 in new appropriation and \$540,101,286 in estimated carryover from FY 20 for multi-year grants and projects. Attachments B, C, and D provide the financial overview by Fund Group and Department, and Citywide revenue by Fund Group, respectively.

The Appropriations Ordinance, included as Attachment A-17, totals \$2,511,084,276 for all fund groups except Harbor, Sewer, and Water, and \$2,514,659,888 for all departments except Harbor and Water. The \$3,575,612 difference between fund groups and departments is due to general City indirect costs budgeted in the Financial Management Department, but charged to the Harbor, Water, and Sewer Funds, which are not included in the Appropriations Ordinance by fund groups.

The proposed Harbor, Water, and Sewer Fund Group budgets are in separate City Council Resolutions included as Attachment A-8 and A-11, respectively, and total \$810,105,315. The Board of Harbor Commissioners adopted the budget for the Harbor Department by minute order on May 27, 2020. The Board of Water Commissioners adopted the budget for the Water Department by Resolution on June 18, 2020.

User fees and charges in the Master Fees and Charges Schedule, included as Attachment A-4, have been adjusted due to changes in service and other factors. For details regarding these proposed new fees and adjustments, please see the List of Proposed Fees Adjustments for FY 21 that has been incorporated as Exhibits B and C to the Master Fees and Charges Resolution.

Other requested City Council actions include:

- Approving the FY 21 One-Year Capital Improvement Program (CIP) budget, included as Attachment A-5, which is contained in the Appropriations Ordinance.
- Amending the Departmental Organization Ordinance, included as Attachment A-6. This amendment incorporates changes to departments, bureaus, and divisions for FY 21. These organizational changes are necessary to implement changes reflected in the Proposed FY 21 Budget. A redline version of the changes is also provided.
- Adopting the amended Salary Resolution, which creates and establishes positions of employment while fixing and prescribing the compensation for officers and employees, is included as Attachment A-7. Due to the delayed and compressed budget process this year, additional changes to classifications will be presented to the City Council in early FY 21.
- Adopting the FY 21 Long Beach Community Investment Company (LBCIC) budget, included as Attachment A-12. The LBCIC budget is prepared annually for City Council approval and is a subset of the Housing Development Fund. The LBCIC oversees the delivery of housing and neighborhood revitalization services. The LBCIC approved its FY 21 Budget on May 20, 2020.
- Adopting a Resolution, included as Attachment A-14, establishing the Gann Appropriations Limit (Limit) for general purpose expenditures. In November 1979, the voters of the State of California (State) approved Proposition 4, also known as the Gann Initiative (Initiative). The Initiative places certain limits on the amount of tax revenue that can be appropriated each fiscal year. The Limit is based on actual appropriations during FY 79 and prevents overspending proceeds of taxes. Only those revenues that are considered as "proceeds of taxes" are subject to the Limit. The Limit is recalculated each fiscal year based on certain inflation and population factors provided by the State. The Proposed Budget includes tax revenue estimates that are at 44.42 percent of the 2020-2021 Appropriations Limit and, therefore, do not exceed the Limit. This calculation is reviewed by the City Auditor for conformance to the law.
- A Resolution declaring a state of fiscal hardship due to the COVID-19 pandemic for FY 20 and FY 21 is included as Attachment A-15. This Resolution allows Measure B reserves to be used in FY 20 and FY 21 in accordance with Measure B and at the direction of the City Council. The Proposed FY 21 Budget proposes the use of reserves to temporarily maintain services while the significant level of uncertainty in the economy's response to events in the short- and long-term remains.

After the City Manager delivered the Proposed FY 21 Budget to the Mayor, technical adjustments were made to complete the budget. These changes, totaling \$135,033,449 across all funds and \$134,469,588 across departments, are normally included in the Proposed Budget in July, but due to the compressed timeframe of the budget development process this year, the number of changes is larger than normal.

While these changes are larger than normal, they do not change the status of the budget as reported in the Proposed FY 21 Budget. A number of these changes were factored into the overall budget process and the General Fund Group is still balanced for FY 21, as shown in these attachments. The amounts for the changes are shown in Attachments B, C, and D. The items listed below identify some of the key changes but are not meant to explain all the changes shown in the Attachments.

1. Inclusion of Citywide interdepartmental charges such as Technology and Innovation MOU, the Fleet MOU, and other grants that impact the reported budget for any department and fund that receives those services. The amounts budgeted vary and are spread across various departments and funds.
2. The Capital Projects Fund Group increased by \$90 million due to the budgeting of the Capital Improvement Plan (CIP) after the Proposed Budget was released in July. Capital Project Funds are budgeted in both the fund providing the revenue offset and, in the fund, expending the project costs; therefore, the amount shown in the Changes column is larger than the actual capital program activity.
3. Budgeting the Measure A transfer from the General Fund Group for \$18.5 million to the Capital Projects Fund Group
4. Budgeting the various personnel benefits in the Employee Benefits Fund Group to allow the payments to be made for healthcare, pensions, and other miscellaneous benefits in the amount of \$16.9 million.

**DISCUSSION OF FISCAL YEAR 2021 FEE CHANGES**

**City of Long Beach**

**September 1, 2020**

## **INTRODUCTION**

City Council approval is requested for the List of Proposed Fee Adjustments for Fiscal Year 2021 (FY 21) included as Exhibit C, which describes the proposed changes to the City's Master Fees and Charges Schedule. As part of the budget process, the City Council last reviewed and amended the Master Fee and Charges Schedule for specified City services on May 5, 2020. Fees are required to cover the cost of service except where the City Council finds there is a greater public benefit through use of a lower fee. On September 5, 2017, the City Council adopted an amended Financial Policy on User Fees and Charges, which reads:

### **User Fees and Charges Will be Set at the Cost of the Service**

**Background** – Fees and associated charges are associated with recovering the cost of providing a service. The City can charge up to the full cost of providing a service.

### **Policy** –

- a. Fees will be set at a level to fully recover costs, except where there is a greater public benefit through use of a lower fee, such as where full recovery may adversely impact overall revenue or may discourage participation in programs where the participation benefits the overall community.
- b. The City Manager will establish a process for an in-depth review of all fees over time. The review, while eventually covering all fees, should emphasize those that have or may have significant subvention (may not be at full cost).

City staff may recommend fees that are not set at the full cost of service, or City Council may choose not to adopt a fee with full cost-recovery, because it would negatively impact the public good. Certain new fees are being introduced to address the demand for City services. Charging a fee allows residents the benefit of a service that may otherwise not be possible without sufficient revenue to offset the cost of providing the service. Some City services in low demand may not initially be assigned a fee. However, if demand increases, there may be a need to evaluate the service and propose a fee that aligns with the cost of the service being provided. Changes in the regulatory environment may also result in new fees being developed. In FY 19, staff initiated an updated citywide fee study to conduct a comprehensive cost of service analysis for the City's numerous fees and charges for services across various City departments. The study is a multi-year effort, starting with Development Services, Health and Human Services, and Parks, Recreation and Marine. It is anticipated that recommendations for department fees currently involved in the first phase of the Citywide Fee Study will be made available during FY 21.

Bi-annual fee adjustments, deletions, and additions are the process by which the broad-based changes to fees are presented to the City Council and the public for consideration. The proposed fee changes currently being presented to the City Council represent the FY 21 Budget Adoption Fee Adjustments, which will take effect October 1, 2020. The next citywide opportunity for the fee adjustment process will occur early in FY 21 and will include City Cost Index (CCI) adjustments calculated to recover the increase in City's costs from FY 19. In addition to citywide opportunities, individual departments may recommend and present fee changes as part of stand-alone items for City Council approval. Please see Exhibit C for the List of Proposed Fee Adjustments.

## **REVENUE IMPACT**

The annual revenue changes described in Exhibit C are estimates and are based on anticipated service usage in FY 21. Estimates will vary depending on market or economic conditions. The City's FY 21 General Fund revenue estimates assume a natural growth of fees and charges. The requested fee changes are required to meet current revenue commitments in the respective departments and will support each department's operations during the fiscal year. The changes also include fee increases necessary to meet proposed revenue adjustments included as part of the City Manager proposed budget.

The FY 21 Fee Adjustments are estimated to result in a net revenue increase of \$3,035,511 in all funds, with \$702,184 in the General Fund Group. In other funds, the annual revenue change resulting from the proposed fee changes listed in Exhibit C is \$2,333,327. This revenue increase is comprised of \$1,039,000 in the Airport Fund Group, \$582,892 in the Tidelands Area Fund Group, and \$711,435 in the Towing Fund Group.

## **PROPOSED FEE CHANGES BY DEPARTMENT**

### **Financial Management**

#### **Towing & Auction Fees**

The Financial Management Department's Towing Division provides 24/7 towing and impound services to support the Police, Parks, Recreation and Marine, and Public Works Departments. Towing and Auction Fee increases are proposed in FY 21 to ensure full recovery of increased operating costs. The proposed fee increases range from 7 to 17 percent and result in increases ranging from \$1 to \$96 above current rates per service. The estimated increase in revenue is \$711,435. The Towing Division actively manages and implements indigent payment plans and homelessness waivers to mitigate the impact of towing fees where appropriate.

### **Fire**

#### **Medical Services**

In FY 19, the Long Beach Fire Department (LBFD) increased Ambulance Transportation Fees for Advanced Life Support (ALS) and Basic Life Support (BLS) transports. The City's cost to provide the services have increased since the last adopted fee changes. The proposed rates align closely to those rates charged by the Los Angeles County Emergency Medical Services Agency (County) rates and are the same as adopted by most ambulance service providers. Since FY 19, the County's ALS and BLS rates have increased and are now higher than the fees charged by the LBFD. The proposed fees for ALS and BLS transport will be increased from \$2,282 and \$1,523 to \$2,540 and \$1,695, respectively. The proposed changes are anticipated to result in an annual revenue increase of \$531,684.

**Long Beach Airport**Airline Fees

The Long Beach Airport manages its financial position by monitoring and forecasting flight and passenger activity. These two activities are the primary factors in setting rates charged to airlines for their use of the Airport. The charges assessed to airlines include aircraft landing and parking, gate use, and common area use. A 10 percent increase is proposed for these fees and is estimated to generate an additional \$1,039,000 for the Airport and will offset declining revenues and fund operating expenses for FY 21. Declining revenues are largely a result of the lower passenger activity due to the impacts of the COVID-19 pandemic on the travel industry. FY 21 annual passenger activity level is projected at 2.4 million, compared to the 3.5 million in annual passenger activity recorded in recent years, prior to the pandemic. The rate increases will help the Airport strengthen its financial position while remaining competitive in the region. When certain revenue thresholds are met, rates must be adjusted to reflect changes in passenger activity level.

**Parks, Recreation & Marine**Vehicle Entry Fees

The Parks, Recreation, and Marine Department currently charges fees for daily vehicle entry and annual vehicle entry passes to El Dorado Regional Park. Daily fees are assessed per vehicle with different rates charged for weekdays, weekends, and major holidays. Rates for annual passes are currently \$60 each, with a reduced rate at \$35 for seniors and disabled individuals. Due to increased costs including staffing and maintenance, the department is proposing to increase rates for both daily and annual parking passes. The proposed increases will result in a \$1 increase across all one-time vehicle entry fees, and a \$5 increase to annual passes. The proposed fee changes are estimated to generate \$170,500 in additional annual revenues.

Marina Slip Fees

The Parks, Recreation, and Marine Department is proposing a two percent increase across all permanent and temporary marina slip rental fees to align the Marina Fund's costs for operations, security, debt service, and capital needs. Annual revenue anticipated from the proposed increase is estimated at \$556,192. Annual rate increases are necessary to ensure the continued solvency of the Marina Fund, as well as to generate revenues required for the repayment of the Marina Revenue Bonds Series 2015 needed to finance the Alamitos Bay Marina improvements and prepay existing loans to the State Department of Parks and Recreation, Division of Boating and Waterways.

Rainbow Harbor/Alamitos Bay Commercial Slip Fee

The Parks, Recreation, and Marine Department currently assesses commercial slip fees for Rainbow Harbor and Alamitos Bay. The current monthly rate of \$18.25 per lineal foot was last increased in FY 19. The department is proposing a \$0.50 increase, resulting in a monthly rate of \$18.75 per lineal foot. The proposed change will recover annual cost increases since FY 19 and more closely tie to average market rates, including those charged by other Southern California marinas such as Marina Del Rey, Dana Point, and San Diego. The estimated revenue increase from the proposed change is estimated at \$19,200.

## EXHIBIT B

### Visiting Vessel Permit Fee

The Parks, Recreation, and Marine Department currently charges a permit fee to visiting vessels. The current daily rate is \$1.30 per foot and was last increased FY 19. The department is proposing a \$0.05 increase, resulting in a daily rate of \$1.35 per foot. The proposed change will recover annual cost increases since FY 19. The estimated revenue increase from the proposed change is estimated at \$7,500. With the increase, the proposed rates will remain consistent with those charged by other Southern California marinas offering similar permits including Channel Islands, Oceanside, Ventura, Dana Point, and Santa Barbara.
