2. (21-1217) Recommendation to receive and file a presentation from the Sustainable City Commission.	Dave Shukla	dave.shukla@gmail.com						Support.	11/16/2021
2. (21-1217) Recommendation to receive and file a presentation from the Sustainable City Commission.	Sona Coffee	sonacoffee@gmail.com						I'm very appreciative of the dedication and hard work that the Office of Sustainability staff consistently puts in to improve environmental quality and livability in Long Beach. The sustainability initiatives presented need to have citywide and cross-departmental support in order to see continued success. The capacity of the Sustainability Office also needs to be invested in so Long Beach can take a leadership role in so many of the environmental and climate action measures that are overdue for implementation in our hardest hit communities. Please consider recommending a realignment of the Sustainability Office, and incorporating the programs into the City's strategic priorities, to set the team and City up for success. Thank you.	11/16/2021

3. (21-1218) Recommendation to receive and file a presentation on charge-ready program updates.	Dave Shukla	dave.shukla@gmail.com						<p>ATTN: Violation of LORS (existing Laws, Ordinances, Regulations, and Statutes)</p> <p>Please Be Advised.</p> <p>This agenda item is extremely problematic, and, along with the Mayor's Fund for Education announcement, a direct violation of AB117.</p> <p>It should not be heard until heard by the entire City Council.</p> <p>SCE already made their pitch last Tuesday, and in whatever work they have been able to muster, prior to the Independent Redistricting Commission.</p> <p>ESPECIALLY AS IT APPLIES TO FEDERAL FUNDING AND PROGRAMS, WHILE WE HAVE AN ONGOING INDEPENDENT REDISTRICTING COMMISSION FOR THE FIRST TIME IN THIS CITY.</p> <p>Thanking You, Dave Shukla Operations LB ACE</p>	11/16/2021
4. (21-1219) Recommendation to receive and file a presentation on the drought's effect on the City of Long Beach.	Dave Shukla	dave.shukla@gmail.com						<p>Support.</p> <p>Want to hear more about LB Water Dept's sea floor operations. Thank you.</p> <p>Dave Shukla</p>	11/16/2021

5. (21-1220) Recommendation to receive and file a presentation on potential carbon pricing legislation and how they could interact with the Climate Action and Adaptation Plan and discuss recommendation to Federal Legislation Committee to add support for establishing a price on carbon to the City's Federal Legislative Agenda.	Dave Shukla	dave.shukla@gmail.com						<p>Councilmembers,</p> <p>Where is the presentation for this please? This is a very important topic which the public has absolutely no consensus on, especially when we are facing so-called "inflationary pressures":</p> <p>https://www.newyorker.com/news/our-columnists/inflation-and-the-great-global-logjam</p> <p>We need to do better, please. It's finally infrastructure week!!!</p> <p>Dave Shukla Operations LB ACE</p>	11/16/2021
6. (21-1221) Recommendation to request a future presentation on California's E-Bike Grant Program administered by CARB and what residents may expect.	Dave Shukla	dave.shukla@gmail.com						Interesting and Curious	11/16/2021

7. (21-1222) Recommendation to request a future presentation on various efforts aimed at removing trucks from the I-710, including Pier B on-dock rail, future electrification efforts, and any other relevant efforts or proposed projects identified by staff.	Dave Shukla	dave.shukla@gmail.com						<p>Councilmembers:</p> <p>We definitely need the powerpoints from these staff presentations to be public. I expect this body to retain the presentations and work with the City Clerk's office to update them on the website.</p> <p>That is a basic issue for youth voters. Can they trust the information their electeds are choosing to put out, in this historical moment, after 5 years of venalty and privation (and two years of the pandemic as its afterbirth, historically speaking) ?</p> <p>Exxon Knew. So did SCE. So do we for things like SCIG and 710 expansion.</p> <p>Trains are for people, not just TEU's!</p> <p>Dave Shukla Operations Director LB ACE</p>	11/16/2021
8. (21-1223) Recommendation to request a future presentation on the "Reducing Reliance on City Revenue from Oil Production" Memo and the next steps for the City of Long Beach.	Dave Shukla	dave.shukla@gmail.com						<p>STRONG SUPPORT.</p> <p>THERE NEEDS TO BE A PUBLIC STUDY SESSION ON THIS AT THE EARLIEST POSSIBLE CONVENIENCE - IT WOULD HAVE BEEN BETTER TO HAVE THAT (AND REDISTRICTING) ALREADY DONE BY THIS POINT IN THE CALENDAR.</p> <p>Having attended the Oil and Gas departments public workshop on Oil Well Abandonment and Site Development, I have questions, and frankly Councilmembers, I think you have strong reason to as well.</p> <p>Dave Shukla Operations Director LB ACE</p>	11/16/2021

8. (21-1223) Recommendation to request a future presentation on the "Reducing Reliance on City Revenue from Oil Production" Memo and the next steps for the City of Long Beach.	Sona Coffee	sonacoffee@gmail.com						Thank you for requesting the oil revenue item for discussion. Please ask staff to present a review of CCA implementation as a potential source of funds to offset the loss in oil revenue. The revenue brought in through a CCA program can fund other clean energy programs in Long Beach, creating cost savings and other offsets for the City. Other CCAs are operating across CA, with two large programs in Southern CA, with great success. As part of this discussion, please also ask staff to consider adequately funding the clean up and capping of existing wells, and for a report back on how Long Beach's operations align with the direction the Governor is taking on oil operations. Thank you.	11/16/2021
