**Subject:** Public comment for Agenda Item #24 for 5/10 City Council meeting

**-EXTERNAL-**

Dear Council Members,

While I support this motion because I strongly believe in Project Homekey, I also want to express my disappointment that housing solutions are disproportionately concentrated in already-overcrowded and resource-constrained west and central Long Beach.

This Council should be a voice for equity and *all* neighborhoods must share responsibility for building housing solutions. That means East Long Beach needs to step up and participate in solutions, not simply force Districts 1, 6, 7, 8, and 9 to absorb all new developments and conversions.
