

Ocean Conservation

*Volunteering, Conservation, and Summer at the
Aquarium of the Pacific*

Raising *Babies*

The
Aquarium's
role in
restoration
and recovery

Key habitat:

Wetlands

Wetlands provide nursery grounds for fish, mammals, and birds – and carbon sequestration!

Volunteers *create* Change

Volunteering: *Field Work*

Shining spotlights for conservation.

Earth Day: 170 volunteers partnered with the Aquarium of the Pacific, donating 425 hours of service restoring habitat at the Los Cerritos Wetlands.

Volunteers mulched trails, planted 130 CSS plants, and removed 1,000lbs of nonnative black mustard, and yellow clover.
