1. (22-0659) Recommendation to receive and file comments from the community, receive and file supporting documentation into the record, and move to a second public hearing on the proposed amendment to the Long Beach City Charter to realign the City's primary election date with the State's primary and general election dates held in even-numbered years; and	Dave Shukla	dave.shukla@gmail.com		Support.	6/14/2022
2. (22-0658) Recommendation to receive and file comments from the community, receive and file supporting documentation into the record, and move to a second public hearing on the proposed amendment to the Long Beach City Charter to establish a Police Oversight Commission and add a Director of Police Oversight position by amending and restating Article XIA. (Citywide)	diana lejins	dianalejins@yahoo.com		Discussed with a few people. Main concern on CPCC proposal is that it weakens existing provisions, and a mayor appointed position of director gives us the same corrupt rubber stamping we now have in all commissions. If this com were modeled after LA and a director actually had proper independent authority, we would be better off.	6/13/2022
3. (22-0657) Recommendation to receive and file comments from the community, receive and file supporting documentation into the record, and move to a second public hearing on the proposed amendment to the Long Beach City Charter to consolidate the administration of the City's natural gas utility with the Long Beach Water Department. (Citywide)	Laura Vossman	vossmanla@verizon.net		I have two questions about this that I hope will be fleshed out at the City Council meeting or otherwise:  1. Why is the combination being pursued now, and specifically does it have anything to do with the recent court decision on Measure M " i.e. does this have any impact on the City's ability to surcharge for utilities to create more revenue for general fund?  2. Art. XIV, Sec. 1400 references "any other public utility" that City Council could later fold into the Water/Public Utility Commission " what would these be, currently or conceptually?	6/14/2022
