**-EXTERNAL-**

Due to the incredible number of events along the Shoreline, you should include interior noise measurement devices. Places like the International Towers do not have the capacity to put air conditioners in, as they only have floor to ceiling glass doors. Therefore they cannot block out any sound.

Hi Megan,

I hear you are working on a noise plan.

The noise study and plan all sound great but we need relief and we need it quick. Basically, loud vehicles need to be ticketed. Period. At least in our area. Finally the Alamitos Beach parking lot got a control arm so people don't party here at night.. Now it's time to start cracking down on loud vehicles that are purposely loud. They are assaulting us daily. We are literally sick of it.

Read my petition and pass the word. Read what the residents say. People along Ocean and Shoreline are FED UP.

[petition: Stop The Noise On Ocean Blvd. and Alamitos Beach in Long Beach, Long Beach, CA \(thepetitionsite.com\)](https://thepetitionsite.com)
