November 2, 2022

TRANSACTIONS AND USE TAX CITIZENS' ADVISORY COMMITTEE MEMBERS

City of Long Beach
California

RECOMMENDATION:

Recommendation to confirm that the City Council's adopted Measure A FY 23 plan, made as part of the Fiscal Year 23 Budget conforms with the intent of Resolutions No. RES-16-0018 and RES-19-0127 prioritizing spending and with the language contained in the ballot measures as expressed in Resolution No. RES-16-0017 and RES-19-0173.

DISCUSSION

On September 6, 2022, the City Council adopted the City Manager's Proposed FY 23 Budget with no changes related to the Measure A spending plan. This plan was reviewed with the Citizen's Advisory Committee (CAC) during the last meeting held on August 17, 2022. Details regarding the Measure A FY 23 revenue and expense budgets, the 5-year infrastructure plan including bonds, and adoption night changes can be found on Attachments A, B, C and D.

In addition to the FY 23 Measure A plan, City Council directed the City Manager to include specific items as high priority projects for consideration of funding using any available FY 22 Year-end surplus resources from the Long Beach Recovery Act, General Fund, Measure A, and/or any other sources as relevant if available. Not in any priority order, the following items below were specifically noted by City Council to be funded by Measure A FY 22 surplus if available:

1. \$400,000 in the General Fund Group in the Citywide Activities Department to transfer to the Capital Projects Fund Group in the Public Works Department to support the Bluff Park Historic Lamps project.
2. \$1,000,000 to further support alley repairs through pavement sealing, asphalt overlays, and full reconstruction throughout the City.
3. \$200,000 for additional funding to improve the Hudson Park Playground, bringing the total funding to \$800,000 with \$600,000 already included as part of the 5-year infrastructure plan.
4. \$500,000 to provide additional support for an all-inclusive all-abilities playgrounds.

The City Manager will return to City Council as part of the FY 22 Year-End Performance Report with status of funding these and other City Council priority projects. Actual funding sources and amount presented in the year-end report may vary higher or lower depending on the situation at that time. Any approved projects using FY 22 Measure A Surplus will be brought to the CAC for review at the next meeting.

SUGGESTED ACTION:

Approve recommendation.

Measure A
FY 23 Summary of Sources and Uses

Ballot Measures - Attachment A

Infrastructure + Bond Proceeds³	84,994,718	-	84,994,718	-	-	-

* The FY 23 Measure A budget includes an Infrastructure Bond Program which will propose a 5-year, \$150 million City Infrastructure Bond Program, with a bond issuance expecting to generate \$50 million in FY 23, and additional issuance in FY 25 and FY 27 each providing \$50 million of funds for those years as well. The details of the planned uses of these funds over the next 5 years will be made available to the public in a separate document. The total uses in FY23 including bond proceeds is \$142,680,983.

¹ Previously, per the Measure A out-year funding plan, funds were being accumulated as reserves for future planned projects such as the rebuilding of the Police Academy and funding public safety communication technology upgrades that had cash needs in different years. These funds are now being released to fund these planned projects as well as additional uses added in FY 23.

² The FY 23 budget is fully funded using \$7.5 million of the anticipated \$12.81 million FY 22 operating surplus. The remaining \$5.3 million anticipated FY 22 operating surplus is not currently allocated to the Measure A out year plan. It is not recommended to allocate these funds at this time. Use of these funds will be included in a future recommendation and brought to City Council at FY 22 yearend.

³ Detailed allocations for Infrastructure by project can be found on Attachment B and by category on Attachment C of the Ballot Chapter. The total Infrastructure funding for FY23, including the Infrastructure Bond Program, is \$84,994,718.

⁴ The FY 23 budget continues to use Measure A to help maintain existing levels of Police and Fire services. "Sworn FTEs Maintained" represents the equivalent number of sworn FTEs retained over the years that may have otherwise been reduced but for Measure A funding.

Grand Total²	\$ 165,651,767	\$ 34,994,718	\$ 200,646,485	

(*) Indicates project scope changes have occurred since the project was initially funded in response to increased project expense needs or budget savings.

^{1.} The original budget for the Fire Station 1 Apparatus Door project was \$495,000. An analysis by Public Works determined that the existing doors of Fire Station 1 were functioning adequately and blended in well aesthetically with the completed Measure A facade improvements and that additional improvements were unnecessary. The amount of \$4,591 reflects the amount spent on the project. On 12/15/20, City Council redirected the remaining funding of \$490,409 from this project to the Fire Department to conduct a Fire Engineer Academy.

^{2.} The FY 23 Measure A budget includes an Infrastructure Bond Program which will propose a 5-year, \$150 million City Infrastructure Bond Program, with a bond issuance expecting to generate \$50 million in FY 23, and additional issuance in FY 25 and FY 27 each providing \$50 million of funds for those years as well. The details of the planned uses of these funds over the next 5 years will be made available to the public in a separate document. The total FY23 funding including bond proceeds is \$84,994,718.

¹. Planned Releases/(Reserves) account for the setting aside of surplus in the current year or the release of any surplus accumulated from prior years to fund the approved Measure A out-year plan or to provide funding for projects in future years. In FY 23, the budget includes a release of cash set aside for the outyear plan in the amount of \$17.7 million and the use of \$7.5 million from projection FY 22 operating surplus. With the rearrangement of surplus releases and projected revenue increased in out-years all previously approved projects are able to be funded in this plan.

². Detailed allocations for Infrastructure by project can be found on Attachment B and by category on Attachment C of the Ballot Chapter.

³. In addition to the Infrastructure allocation, an Infrastructure Bond Program will propose a 5-year, \$150 million City Infrastructure Bond Program, with a bond issuance expecting to generate \$50 million in FY 23, and additional issuance in FY 25 and FY 27 each providing \$50 million of funds for those years as well. The details of the planned uses of these funds over the next 5 years will be made available to the public in a separate document.

⁴. \$5.3 million represent the remaining anticipated FY 22 operating surplus not currently allocated to the Measure A out year plan. It is not recommended to allocate these funds at this time. Use of these funds will be included in a future recommendation and brought to City Council at FY 22 yearend.
