Subject Save the Jergins Subway

I would like to express my support for an adaptive re-use program for the Jergins Subway. Not only do I find it a unique historical gem for Long Beach that myself and may will enjoy, I feel that with the right security measures, it may prove to be a safer pedestrian passage across busy Ocean Boulevard than current crosswalks. Anything that supports more pedestrianism in downtown Long Beach is a positive in my opinion.  
Thank You,  
Jenny Dean  
Downtown Long Beach Resident

Subject Fwd: Help Councilmember Suja Lowenthal Save the Jergins Subway

While we enjoyed the opportunity to view the Jergins Subway at the recent University by the Sea event, we do not support its being reopened. We are first of all, concerned about safety. Mayor Foster has shared the concern many times about the existing shortage of police officers. Why would you add a venue that could easily be a crime magnet. Other safety issues include seismic and exiting in the event of fire or other emergency. The costs to resolve the structural and safety issues would be significant and we do believe it should be a spending priority for the City. If the City has funding for this type of project, the Council should consider spending it on facilities for our youth or for a shelter for the homeless.

Sincerely,

George and Lynn Pardon

Hi,

Thank you for attending University by the Sea.

Long Beach City Councilmember Suja Lowenthal, whose district includes the Jergins subway, introduced a motion requesting City Staff to study and recommend an 'adaptive re-use' plan and grant funding to permanently preserve the Jergins subway.

Your participation at University by the Sea helped make this happen, and now you have another key opportunity to tell the City why it should save the Jergins subway.

On Tuesday, November 20, Councilmember Suja Lowenthal's motion will be heard by the Mayor and City Council. We invite you to attend the Council meeting and voice your support. The meeting starts at 5:00 pm at Long Beach City Hall's Council Chambers, located at 333 W. Ocean Blvd, Long Beach, CA, 90802.

You can also share your thoughts by emailing the City. Please send your suggestions to City Clerk Larry Herrera, and he will forward your

email to the Council and Mayor for you. The City Clerk's email is [CityClerk@LongBeach.gov](mailto:CityClerk@LongBeach.gov).

Thanks again,  
The U-Sea Team

Subject Jergins Tunnel

Dear Council Members,

Like my Grandfather and my parents before me, and having been born and living here most of my life I believe there is no better place on earth the Long Beach. There have been so many changes made in the City; some to it's betterment and some in my opinion not so much.

The one area I think Long Beach needs to do is preserve our unique qualities of history like the Jergins Tunnel.

This gives Long Beach back a piece of its past and something I think tourists would enjoy as well. I am speaking

from that standpoint of growing up as the granddaughter of M.K. Guertin who founded and started Best Western Motels

right here with my parents on Ocean Blvd. between Bennett and Roswell.

I do believe we need to preserve more of our historical architectural buildings in town rather than tear them down

Thankyou For Your Time,

Patricia Pollman

Thank you for your e-mail.

How about a noise reduction campaign before we start on yet another agenda item.

Subject Jergins Trust Building/Subway

Long Beach has done more than enough of tearing down our past. Look at all of the great and re-emerging cities...they blend the past with the present. Long Beach has a reputation for tearing down incredible historical buildings and replacing them with glass and concrete monstrosities. The state building at Pacific and 3rd, the City Hall are examples of new buldings which already need to be redone or adapted. KEEP Long Beach history standing.
