

eComments Report for City Council Meeting Agenda of May 16, 2017

Item	Name	E-mail	Street	Neighborhood	City	State	Zip	Comment	Received
HEARING:	Lucy Johnson	lucyjohnson1@gmail.com						Forwarding this comment from Dennis Pursley: Part 1 - To: Members of the Long Beach City Council As a former Olympic coach, National Team Director for USA Swimming and a club coach for many years, I am intimately aware of the history and invaluable contribution that the Belmont Plaza pool has made to the sport of competitive swimming. It saddens me to think that the proposed renovation of this facility could be blocked by appeals to the EIR.	5/15/2017
2. (17-0371) Recommendation to receive supporting documentation into the record, conclude the public hearing; consider appeals from Jeff Miller and Melinda Cotton, Joe Weinstein, Ann Cantrell and Citizens Advocating for Responsible Planning (CARP), the Long Beach Area Peace Network and Anna Christensen, and Gordana Kajer; and <input type="checkbox"/> Uphold the Planning Commission's decision to adopt resolution certifying Environmental Impact Report 01-16 (State Clearinghouse No. 2013041063), approve a Mitigation Monitoring and Reporting Program, and approve Site Plan Review, Conditional Use Permit, Standards Variance, and Local Coastal Development Permit entitlements for the construction and operation of the Belmont Beach and Aquatic Center, an indoor/outdoor pool facility with an adjacent passive park, cafe, and restroom buildings (Application No. 1405-01) at 4000 East Olympic Plaza. (District 3)	Susan Miller	mpshogrl@msn.com			Long Beach	CA	90803	The EIR should not be passed or approved. The EIR is flawed. Proper procedures and policies were violated/not used. Flooding of the parking lot which is public use with Sea Level Rise is significant. The parking lots flood currently with a rain because the parking lot is at water table line. Flooded parking lots & walkways makes the pool inaccessible. Adequate protection of the mature trees for the habitat is neglectful. Newer information says this land should not be developed.	5/14/2017

(District 3)</p>	Lucy Johnson	lucyjohanson1@gma il.com						<p>I strongly urge the members of the City Council to deny the 4 appeals before you. The EIR was very thorough, properly prepared, and posted for public review and comments for 65 days (longer than usual). You also recently received correspondence from LBSurfrider.org. That letter should be ignored in this hearing, because they did not participate in public review/comments for the EIR, so have no standing. This project is needed! Opponents are few, supporters are many. #aquaticsLB</p>	5/12/2017
