31. (19-0448) Recommendation to request the City Council to oppose Senate Bill 50 (Weiner), which would preempt local zoning laws to allow higher density housing near "transit-rich" and "jobs-rich" areas, including in single-family neighborhoods, and take a "one-size-fits-all" to addressing land use for housing throughout the entire state.	Mark Nevin	markn@richmondplastering.com						SB50 is a gross violation of the principle of "home rule". Long Beach must not remain silent again, and must fight to maintain local control over land use. We don't need the State telling us what's best for Long Beach. With a few exceptions, development in Long Beach has been responsible, has increased the quality of life for its citizens, and has made it the diverse, unique and coveted city it is today. Long Beach knows what's best for Long Beach. Keep the State out of local development policy!	5/7/2019

Michael Clemson	mclemsen@gmail.com						Housing affordability in California is a crisis. Along with strong renter protections, more housing is needed and quickly, SB 50 can help. The fears surrounding SB50 are significantly over blown. Lot sizes in Long Beach prevent 5 story buildings from being built on most lots. It allows neighborhoods to grow and evolve, and allows people who didnt luck into their homes through wealth or birth year to live in the city that they call home.  Say no to the fear mongering and vote no on this item.	5/7/2019

Anne Proffit	anne@highpowermedia.com						This council must decide if it works for the PEOPLE of Long Beach or for Sen. Wiener's and developer self-interests. This is his 4th or 5th try to remove local powers over housing - it needs to fail as his others have. We need organic development, not force-fed mega-density. You can still get your desired developer mega money (all you really want) but just do it in a sensible fashion. SB50 isn't a winner for LB or the rest of CA.	5/4/2019

<p>32. (19-0451) Recommendation to direct City Manager to work with the Parks, Recreation, and Marine Department to implement the Compassion Saves model as the operational approach for Long Beach Animal Care Services (LBACS) ensure that this direction is reflected in the LBACS Strategic Plan and provide a report on the existing relationship and recommendations for improvements in policies and practices between SLCAIa and LBACS to maintain facilities and financial conditions which are most conducive to promoting increased adoptions at the LBACS facility.</p>	Michelle Baker	michellebaker199@gmail.com						<p>Hello, I am very concerned about the conditions at the Long Beach shelter...the kennels are not clean, animals are not getting medical attention and there is no promotion of the animals for adoption. We need specific policies in writing to address this. We also want a specific timeframe on the report on the relationship between SPCAla &amp; the LB Shelter. They also cannot keep taking puppies from the mother dog and leave her behind. That is dog cruelty. We need more money for the shelter.</p>	5/6/2019

Not compassion saves. Please listen to your citizens. We aren't stupid. We know that No Kill does not mean limited admissions. Your voters are taking note. We want change. More than a new name for the same old procedures. If we are the progressive city our mayor says we are, then let's actually act like it. Let's set an example! Please! I'm born and raised in Long Beach and I'm ashamed of our shelter. I would love to volunteer for a NO KILL shelter! Compassion Saves is not what we want.</p>	5/5/2019
