

Comments received regarding Item No. 4  
Airport Advisory Commission  
January 16, 2020

Via-email

Ken,

Can you please share with the commission these additional comments.

I noted that it is recommended as receive and file with no action.

I'm asking that the commission direct staff to come up with a solution and/or options for the airport area hospitality industry and report back in 30 days.

Courtesy vans are just that a courtesy to their hotel guests; they are not making money from it, unlike Uber and yellow cab.

The other option is to have the Chair or someone make a motion to amend the airport transportation fee and come up with language that calls out for all area airport hotels an annual fee of \$1K or none at all if the hotel buys an environmentally friendly van. Definition to be determined by staff.

Thank You

Regards, Mike "24-7"
