DeForest Park Discovery Trails

QUERCUS agrifolia- California Coast Live Oak

Category: Tree

Evergreen: Yes

Origin: California

Height: 30-60 feet

Width: 40-70 feet

Leaves: Leathery, Dark Green, Holly Like Leaves with Toothed Edges

Fruit: Acorns

Exposure: Full Sun

Irrigation (H2O Info): Low to Moderate Water Needs

Plant Factor: M/L

Zones: 7-9, 14-24

DeForest Park Discovery Trails

CALOCEDRUS decurrens- Incense Cedar

Category: Tree/ Conifer

Evergreen: Yes

Origin: California Native

Height: 40-60 feet

Width: 10-20 feet

Leaves: Shiny Green Foliage

Fruit: Reddish Brown Cones

Exposure: Full Sun

Irrigation (H2O Info): Low Water Needs

Plant Factor: L

Zones: 2-12, 14-24

DeForest Park Discovery Trails

SEQUIOA sempervirens- Coast Redwood

Category: Tree

Origin: California Native

Evergreen: Yes

Flower Color: Not significant

Height: 60-100 feet

Width: 10-30 feet

Exposure: Sun or light shade

Drought Tolerant: Yes

Irrigation (H2O Info): Medium Water Needs

Sunset Zones: 4-9, 14-24

DeForest Park Discovery Trails

PINUS eldarica- Afghan Pine

Category: Tree

Evergreen: Yes

Origin: Russia, Afghanistan, Pakistan

Height: 50-80 feet

Width: 20-35 feet

Leaves: Dark Green Needles in Groups

Cones: Oval to Oblong 3" long

Exposure: Full Sun to Partial Sun

Irrigation (H2O Info): Regular to Low Water Needs

Plant Factor: M/L

Zones: 8,9, 13-24

DeForest Park Discovery Trails

CEDRUS deodara- Deodar Cedar

Category: Tree

Evergreen: Yes

Origin: Western Himalayas

Height: 60-80 feet

Width: 30 feet

Trunk: Branch Tips and Tree Top Droop to Produce a Weeping Habit

Leaves: Needles

Fruit: Pine Cones

Exposure: Full Sun

Irrigation (H2O Info): Regular Water Needs

Plant Factor: M/L

Cultivars: Provide Varying Sizes and Foliage Color

Zones: 3-9, 14-24

DeForest Park Discovery Trails

JUNIPERUS californica- California Juniper

Category: Tree

Evergreen: Yes

Origin: California

Height: 10-40 feet

Width: 10-40 feet

Trunk: Smooth Red Brown Bark Peels off in Thin Flakes

Leaves: Rich Yellow Green Foliage is composed of Small Overlapping Scales

Fruit: Blue Gray Round Fruit Matures in Early Spring

Exposure: Full Sun to Partial Shade

Irrigation (H2O Info): Medium to Low Water Needs

Plant Factor: M/L

Zones: 3-11, 14-24

DeForest Park Discovery Trails

PINUS canariensis- Canary Island Pine

Category: Tree

Evergreen: Yes

Origin: Canary Islands

Height: 50-80 feet

Width: 20-35 feet

Leaves: New Growth is Bluish Green, Mature Growth is Dark Green

Cones: Oval, Yellowish Brown

Exposure: Full Sun to Partial Sun

Irrigation (H2O Info): Regular to Low Water Needs

Plant Factor: M/L

Zones: 8,9, 13-24

DeForest Park Discovery Trails

SEQUOIA sempervirens 'Aptos Blue'- Aptos Blue Coast Redwood

Category: Tree

Evergreen: Yes

Origin: California Native

Height: 70-100 feet

Trunk: Reddish Brown Bark, Lateral Branching is Uniform and Symmetrical

Leaves: Medium Blue-Green Narrow, Pointed, Feather-like

Exposure: Partial Shade, Sun

Irrigation (H2O Info): Regular Water Needs

Plant Factor: H

Zones: 7-9, 14-24

DeForest Park Discovery Trails

PINUS halepensis- Aleppo Pine

Category: Tree

Evergreen: Yes

Origin: Mediterranean Region

Height: 30-60 feet

Width: 20-40 feet

Trunk: Branches are Flexible and Wispy when Young

Leaves: Light Green Needles

Cones: Oval to Oblong, Brown when Mature

Exposure: Full Sun

Irrigation (H2O Info): Low Water Needs

Plant Factor: L/VL

Zones: 7-23
