Subject: Public comment Agenda Item #1 for 10/1 Planning Commission meeting re: car wash
Date: Friday, September 25, 2020 5:32:12 PM

-EXTERNAL-

I strongly oppose the construction of a car wash at this location. Increasing ground-level emissions adjacent to an elementary school would be planning malpractice, especially since the staff report notes that this is "one of the most pollution burdened areas of the city" and "the proposed car wash will intensify the auto-oriented land uses adjacent to a school." Car-enabling infrastructure is a fossil fuel subsidy and public health risk. Vote AYE on the motion to deny this permit.
