CEMISC	<p>Miscellaneous</p> <p>VTF (Nicole Lujan- Environmental Health Specialist and I) responded to a complaint that the beauty salon was open. Upon arrival we noticed that most of the windows were covered up with paper and that the lights inside were on. I knocked on the door and there was no answer. Nicole noticed that there was a small opening through the paper and when she looked inside she saw a person getting her hair done. I also looked through the opening and saw people inside the salon. The opening in the window was too small so I could not take pictures.</p> <p>Since there was no answer at the front door we walked to the rear of the building to check if there was a rear entrance. We found the rear entrance, I knocked, waited a few seconds and tried door knob. To my surprise the door was unlocked so I opened it. There were two people (male and female) in what appeared to be a break room. I introduced myself and asked if there was a manager I could speak to. The gentleman asked why I needed a manager and explained the reason for the visit (complaint that salon was open). He stated they were just cleaning. I could hear several voices (talking and laughing) so I asked if I could come in to take pictures to show the salon did not have customers inside. He refused to provide access and began recording with his cell phone. He accused me of trespassing and questioned why I opened the door. I explained that I had knocked before opening the door and that I was not trespassing as I was not inside of the business. It became a shouting match between the two of us - he continued to question why I opened the door and I tried to explain my actions. I realized the conversation was going nowhere so I took a picture of the gentleman and walked back to the front of the building to issue the citation.</p> <p>Given the tense situation I contacted PD and asked for assistance before posting my citation.</p> <p>NOTE: Citation was issued because both Nicole and I saw customers inside the business and when speaking with staff I both heard different people talking and laughing.</p>	Araceli Alvarez	01/21/2021
