3. (21-0296) Recommendation to conduct, receive and file a Study Session, and receive input from Economic Development & Finance Committee Members and members of the public for the implementation of a racially equitable economic recovery strategy to help Long Beach businesses and workers quickly and effectively recover from the economic hardship caused by COVID-19 as approved by the CityCouncil on March 16, 2021.	Jessica Schumer	schumer.jessica@gmail.com	Dear Chair Mungo & the ED&F Committee, I urge you to uplift & bring forth the award-winning work that has already been done specifically addressing this topic which included outreach, visioning, & planning so that we can launch into the implementation phase. It can be found in a variety of city plans & initiatives, including the Everyone In Initiative, the Youth Strategic Plan, the Early Childhood Education Strategic Plan, the Framework for Reconciliation, the Digital Inclusion Roadmap, the Smart Cities Initiative, & many others. It is imperative that we get to work quickly, prevent duplication of efforts & use ideas/plans that have been vetted & are centered around those who need the services the most. As Vice Chair of the EDC & a pediatrician serving patients in the central, west and north areas of Long Beach, I look forward to helping however I can and hope we can continue to hold ourselves accountable to making Long Beach a city where all can live, work, learn, play, & thrive.	4/5/2021
