PUBLIC COMMENT	Ian Patton	ispatton@yahoo.com						<p>Regarding the LBPD superspreader event, this matter has received national and indeed international attention due to the obvious egregiousness depicted in photos of the mass non-masked event: https://us17.campaign-archive.com/?u=60759fc6c3dac60eb3957075e&id=72e169b429</p> <p>Chief Luna, who personally supervised the event, must be held accountable. If he is not, the City of Long Beach would be in effect condoning the spread of disease and fatalities which likely followed this event during the greater Nov.-Dec. wave of infections.</p>	4/8/2021
