**Subject:** City Council Meeting - 9/14/21-Agenda Item #30 - My Comment

**-EXTERNAL-**

**From:** Genny Hulbrock, Belmont Shore and Los Altos

**To:** Mayor Garcia and Councilmembers:

For months Belmont Shore parklets have displaced dozens of parking spaces from the neighborhood and negatively impacted safe vehicle and pedestrian passage. Shore residents dealt with these issues to help businesses while they could not utilize their indoor seating.

Now Public Works and the City Manager are asking you to approve another extension, of the “temporary” parklets, this time for 9-months!

Please do not approve any extension of “temporary” parklets in Belmont Shore until Councilmember Price has had an opportunity to hold widely publicized meeting of Belmont Shore residents. Residents deserve a fair chance to hear from city staff experts on areas of concern and then to provide their own input.
