## eComments Report for Long Beach Independent Redistricting Commission Meeting Agenda of October 20, 2021

The draft maps demonstrate that you're listening to our community and that you're proposed public draft maps submissions and proposed consultant drawn draft maps based on Commission priorities; and conduct a hearing to select no more than three proposed draft maps to receive public testimony on at the Wednesday, October 27, 2021 meeting.  Reba Birmingham  The draft maps demonstrate that you're listening to our community and that you're not afraid to shake things up. In particular, I appreciate your efforts to unify West Long Beach into a single district, to maintain the compactness of Cambodiatown, and share the airport across multiple districts.  To guarantee the longevity (i.e. "future-proof") the new maps. I encourage the Commission to especially consider the "Under 5% Deviation Versions" carefully. The maps that I liked most were "Plan A &C"Under 5% Deviation Version" and "Plan B&C"Under 5% Deviation Version" why? Both of these versions unify West Long Beach into a single district. They also ensure that the First District will have a close relationship with the Port, which directly impacts the quality of life of its residents. Both maps also maintain a tight and compact District 2 in Downtown Long Beach.  Versions that I dislike contain things like a vertical split of District 9 and a winding, wandering District 2  My wife and I live in Bluff Park. Neighborhoods should make sense, and attempt to reflect the affinity and uniqueness of each community. I do not like the proposed plan as it is being put froward as it cuts us up into destabilizing units. Nearby residents in the same district. Some of our interests include quality of life, traffic and safety, land use, and historic preservation. My neighborhoods association has put forth a map that proposes inclusion of the following neighborhoods, alphabetically listed: Alamitos Heights, Belmont Heights, Belmont Shore, Buff Heights, Buff Park, Carroll Park, Carroll Park, Greenbelt Heights, Alamitos heights of the build community and would hate to see our efforts	Item	Name	E-mail	Address	Comment	Received
proposed public draft map submissions and proposed consultant drawn draft maps based on Commission priorities; and  Conduct a hearing to select no more than three proposed draft maps to receive public testimony and the Wednesday, October 27, 2021 meeting.  PUBLIC COMMENT  Reba Birmingham  Reba	3. (21-123RC) Recommendation	Padric Gleason				10/16/2021
Long Beach into a single district, to maintain the compactness of Cambodiatown, and share the airport across multiple districts.
