Substitute Motion: Approve recommendation, as amended, to make modifications to height increases and parking: [1] for the base tier area, to reduce height concessions so that only 1 story of additional height could still be allowed as an on-menu concession, but a 2nd story would become an “off-menu” concession (that would then be required to go through a public review process, go before the Planning Commission, and the project would be required to prove the additional height is a physical necessity for the project);

[2] for the high-quality transit corridor area, to reduce height concessions so that only 1 story of additional height be allowed as an on-menu concession, but a 2nd and/or 3rd story would become “off-menu” concessions subject to the same additional requirements (must undergo a public review process before the Planning Commission and prove it’s a physical necessity);

[3] to bump up the parking ratios for 0-1 bedrooms to be 1 space per unit (instead of 0.75 spaces per unit and which is the same as state density bonus law);

[4] to bump up the parking ration for 2 bedroom units to require them to provide 1.25 spaces per unit;

[5] the parking ratio be 2 spaces per unit for 4+ bedrooms;

[6] this amendment would no longer call out guest parking as a separate requirement.
