Recommendation to authorize City Manager to execute all necessary documents with the State of California Department of Health Services in conjunction with a Mosquito Control Award of \$25,900 for a one-year period, and increase appropriations in the Health Fund (SR 130) in the Department of Health and Human Services (HE) by \$25,900. (Citywide)

On July 28, 2006 the Department of Health and Human Services received notification of a Mosquito Control Grant Award of \$25,900 from the California Department of Health Services to enhance and expand mosquito control for the residents of the City of Long Beach. These funds are earmarked specifically to reduce the risk of West Nile Virus transmission to Long Beach residents. There are several areas in Long Beach requiring enhanced control, including the Los Angeles River, the Harbor and Simms Pond. The additional funds will be used to purchase two all terrain vehicles (ATV), and provide revenue for additional pesticides and staff overtime.

This matter was reviewed by Senior Deputy City Attorney Donna F. Gwin on August 8, 2006, and Budget Management Officer David Wodynski on August 15, 2006.

City Council action on this matter is requested on August 22, 2006, as the funding period commenced on July 30, 2006.

The total amount of the grant award is \$25,900. An appropriation increase for this amount is included in the recommendation.

Approve recommendation.

RONALD R. ARIAS  
DIRECTOR HEALTH & HUMAN SERVICES
