Recommendation to declare ordinance amending and restating in its entirety Southeast Area Development and Improvement Plan (SEADIP) (PD-1), read and adopted as read. (District 3)

On August 8, 2018, the California Coastal Commission (CCC) approved the Local Coastal Program (LCP) Amendment for changes to the Southeast Area Development and Improvement Plan (SEADIP/PD-1) to allow for two new oil production areas, wetlands restoration program, visitor’s center, and clarification of requirements for oil production areas. These changes were originally adopted by the City Council on January 16, 2018 in conjunction with, and to allow for, the Los Cerritos Wetlands Oil Consolidation and Wetlands Restoration Project (Project). Because SEADIP is incorporated as part of the City’s Local Coastal Program, amendments to SEADIP require a LCP Amendment to be certified by the CCC to be effective. The CCC staff incorporated modifications to the changes (Attachment A - CCC modifications redlined), which must now be formally adopted by the City Council. The modifications generally consist of:

- Incorporation of Coastal Act policies;
- Requirement for consolidation of oil facilities;
- Addition of oil operating regulations; and,
- Addition of regulations to carry out the Coastal Act provisions.

The Project site consists of four parcels within and outside of the City’s certified LCP, and the CCC is currently reviewing a Consolidated Coastal Development Permit (CDP) for the Project, in accordance with the newly-amended SEADIP provisions. Staff expects the CCC

will conduct a hearing on the Consolidated CDP by the end of 2018.

Public hearing notices were distributed on August 31, 2018, in accordance with the requirements of Chapter 21.21 of the Long Beach Municipal Code. Any written testimony received following preparation of this report will be provided to the City Council prior to the hearing.

In accordance with CEQA and CEQA Guidelines Section 15265, activities and approvals made by a local government pursuant to the California Coastal Act are exempt from CEQA. The CCC modifications to SEADIP, the City's LCP, were analyzed by CCC staff and found to be in compliance with the California Coastal Act and CEQA. Taking local action to formally incorporate these modifications into SEADIP are, therefore, exempt from CEQA.

This matter was reviewed by Assistant City Attorney Michael J. Mais on September 17, 2018, and by Budget Analyst Officer Julissa José-Murray August 22, 2018.

The Coastal Act requires the City's adoption of the suggested modifications be completed within six months of the August 8, 2018 CCC action.

There is no fiscal or local job impact associated with this recommendation.

Approve recommendation.

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF LONG BEACH AMENDING AND RESTATING IN ITS ENTIRETY SOUTHEAST AREA DEVELOPMENT AND IMPROVEMENT PLAN (SEADIP) (PD-1)

LINDA F. TATUM, FAICP  
DIRECTOR OF DEVELOPMENT SERVICES

APPROVED:

PATRICK H. WEST  
CITY MANAGER
