Type:Agenda ItemStatus:ApprovedFile created:10/3/2011In control:City CouncilOn agenda:10/11/2011Final action:10/11/2011

Title: Recommendation to request City Manager to develop an adaptive reuse incentive program and

ordinance that recognizes the economic, environmental and cultural value of preserving older and/or historic landmark buildings in consultation with the Cultural Heritage Commission, the Planning

Commission and the historic preservation community.

Request that the program include, but not be limited to, the following elements drawing on adaptive reuse ordinances in Los Angeles, Santa Monica and Pasadena:

• A fair, clear and predictable approval process that stresses collaboration between the various approval entities including building, Fire, planning and Public Works.

Regulatory changes to provide incentives for adaptive reuse, including the potential for density, corridors/neighborhoods of focus, by-right and parking waivers.

Flexibility in building and fire codes that mandate health and safety protections while ensuring that requirements do not render projects infeasible

Application of the historic building code as appropriate.

Develop a handbook and online resource describing the program to potential developers.
