Recommendation to authorize City Manager, or designee, to execute an agreement, and all necessary documents, subcontracts, or any subsequent amendments, including amending the award amount, with the State of California Department of Public Health, to accept and expend grant funding in the amount of \$14,453,253 for the Women, Infants and Children Nutrition Supplement Program, for the period of October 1, 2022 through September 30, 2025. (Citywide)

Since 1974, the Department of Health and Human Services (Health Department) has operated the Women, Infants, and Children (WIC) Nutrition Supplement Program for low-income families through a contract with the State of California Department of Public Health (CDPH). This program provides nutrition education through in-group and individual counseling, supplemental food vouchers, breastfeeding support, and health and social services referrals to eligible participants throughout Long Beach.

The WIC Program serves approximately 15,830 families per-month through five sites located throughout Long Beach. Families receive funds on a WIC electronic balance transfer card to purchase healthy supplemental foods from WIC-authorized vendors, which brings in additional dollars to the local economy and increases access to healthier food that would otherwise be lacking.

This matter was reviewed by Deputy City Attorney Taylor M. Anderson on April 19, 2022 and by Revenue Management Officer, Geraldine Alejo on April 21, 2022.

City Council action is requested on May 10, 2022, to provide adequate time to execute the agreement by October 1, 2022 and to continue providing services without interruption.

The City of Long Beach (City) will receive grant funding up to \$14,453,253 for the period of October 1, 2022 through September 30, 2025. The City will receive \$4,817,751 during the first year of the grant agreement. There is sufficient appropriation for the first year of the agreement budgeted in the Health Fund Group in the Health and Human Services Department, which will be offset by grant revenue. Subsequent year appropriations will be requested during the annual budget process. No match or in-kind service mandate is required. This recommendation has no staffing impact beyond the normal budgeted scope of duties and is consistent with existing City Council priorities. There is no local job impact associated with this recommendation.

Approve recommendation.

KELLY COLOPY  
DIRECTOR OF HEALTH AND HUMAN SERVICES

APPROVED:

THOMAS B. MODICA  
CITY MANAGER
